NAGINA SOCIAL WELFARE UK · MARKAZ DEEN-E-ISLAM · QURAN ACADEMY

Parent Portal User Manual

How to use the NSW Parent Portal Android app and the parent web portal: sign in, read messages, check and pay fees, follow your child's attendance, daily checklist and learning, request leave, and keep your own details up to date. One portal serves both of our madrasas, in Peterborough and in Manchester.

13 October 2026 | Web portal version 1.0 | Android app version 1.0.1

ANDROID APP

NSW Parent Portal on Google Play

For Android phones and tablets. Install it, then sign in with the username from your madrasa office.

`https://play.google.com/store/apps/details?id=com.learning.mdi_parent_app`

Get it on Google Play

WEB PORTAL

Parent web portal

For iPhone, computers, tablets, and any phone browser. It uses the same username and password as the app.

`https://admin.naginasocialwelfare.co.uk/login/parent`

Open the parent web portal

VIDEO GUIDE

Watch the video

Watch the video guide

A 5-minute step-by-step video of the Parent Portal, with voiceover, in full HD.

5 min 23 s · Full HD 1080p · with voiceover · To jump to a step, open the video page: https://www.naginasocialwelfare.co.uk/guides/parent-portal-video/

1. Before you begin

There are two ways to follow your child: the **NSW Parent Portal** app on an Android phone, or the **parent web portal** in any browser. Both show the same information, and you sign in to both with the same username and password. You only see children the madrasa has linked to your account.

Sign in with the **username** the office gave you, not your email address. The password is the one you chose from the invite email, or the one you set after a reset. There is no public registration.

Our two branches

Nagina Social Welfare UK runs two madrasas. The portal knows which one your child attends, so after you sign in, Home, Contact and every message show your own branch's name, address and phone number. There is nothing to choose at sign-in.

Branch	Address	Contact
Markaz Deen-e-Islam, Peterborough	103 Burmer Road, Peterborough PE1 3HT	info@naginasocialwelfare.co.uk · +44 7831 684738 phone and WhatsApp
Quran Academy, Manchester	Partington Community Centre, Manchester M31 4FL	qam@naginasocialwelfare.co.uk · +44 7872 340123 phone and WhatsApp

If a child at each branch is linked to you, the portal switches branch when you switch child under My Child. Fees are set per branch, so the amounts in Fees follow the child you have selected.

About these pictures. They were taken on 13 October 2026 on a test copy of the portal, signed in as Test Father (username teststudent.father), who is linked to Test Student in TestClass at Markaz Deen-e-Islam. The fee for October is £35.00 and nothing has been paid yet. The madrasa has sent a welcome note, a behaviour note, an activity note and a term report, so Messages and Updates have something to show. The Manchester pictures use a Quran Academy test account. Web portal pictures were taken in Chrome. App pictures were

taken from the Android app. The Chrome and Safari pictures are guides to the menus you will see.

This manual online: https://www.naginasocialwelfare.co.uk/guides/parent-portal-manual/

2. Get the app

ANDROID · AVAILABLE NOW

NSW Parent Portal

On an Android phone or tablet, install **NSW Parent Portal** from Google Play. It is published by Nagina Developer for Nagina Social Welfare UK and works for both branches. The office gives you the username. You cannot create an account from the store page.

Open the Play Store page

1. On the phone, open the Play Store link above, or search Google Play for **NSW Parent Portal**.
2. Check the crest and the name Nagina Developer, then tap **Install**.
3. Open the app and sign in with the username and password the office gave you. Chapter 3 shows each screen.

Support for the app is `info@naginasocialwelfare.co.uk` (Peterborough) or `qam@naginasocialwelfare.co.uk` (Manchester).

IPHONE · COMING SOON

App Store version

A native iPhone app is on the way. It is not on the App Store yet, so there is nothing to download from Apple.

Until then, open the parent web portal in Safari and add it to your Home Screen (chapter 4). It then opens from an icon, the same way an app does, and you sign in with the same username.

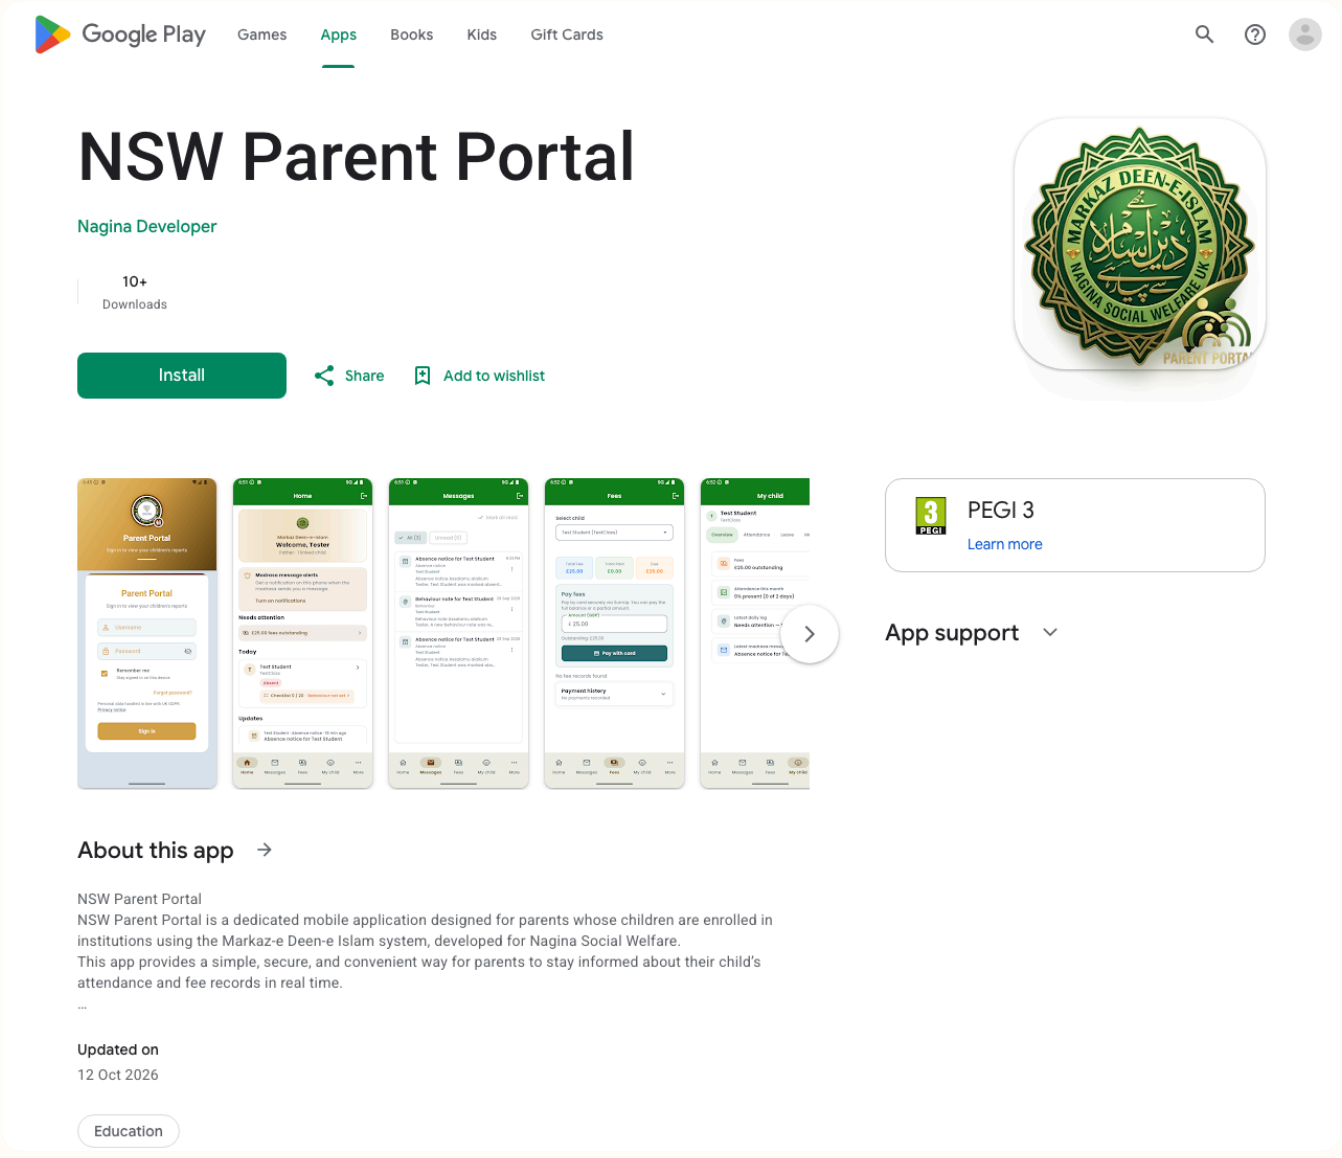

Figure 1. The Android app on Google Play. Tap Install, then sign in with the username from the office.

3. Using the Android app

The app has the same pages as the parent web portal, arranged for a phone. A bar along the bottom holds **Home**, **Messages**, **Fees**, **My Child**, and **More**. Each page has its own colour, so you can tell at a glance where you are. **Logout** is at the top right of every page.

Sign in

1. Open **NSW Parent Portal** from the home screen.
2. Type your username and password. The eye icon shows or hides the password.
3. **Remember me** is ticked already. Leave it ticked on your own phone, and the app opens straight to Home next time, even without signal. Untick it on a shared phone, and the app asks for the password at the next start.
4. Tap **Sign in**. **Forgot password?** sends the same reset link as the web portal.

Home and notifications

Home starts with a welcome card: your name, your branch, how many children are linked, how many messages are unread, and your relationship. Below it are five colour tiles that jump to **Messages**, **Fees**, **Request leave**, **Islamic Quiz**, and the **Halal barcode helper**. Then come **Madrasa message alerts**, **Needs attention**, **Today**, **Updates**, and the madrasa's contact card.

The **Madrasa message alerts** card asks to send notifications. Tap **Turn on notifications** and allow them, so a new madrasa message arrives on the phone like a text. Email and the Messages page still work if you leave them off.

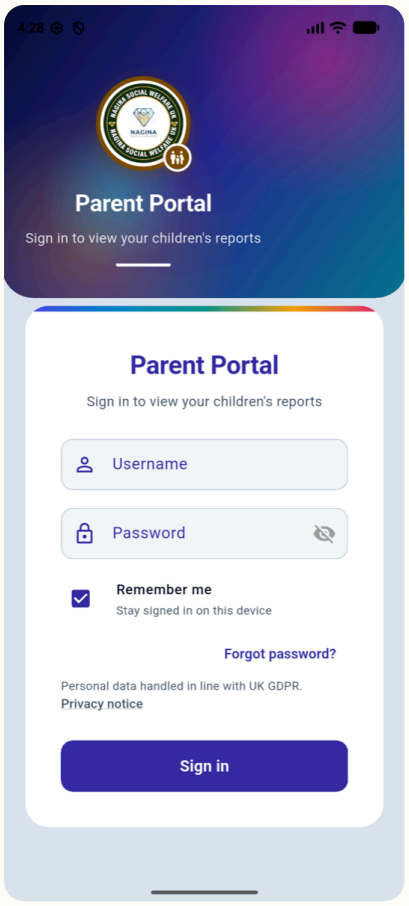

Figure 2. Sign in to the app.

Figure 3. App Home: welcome card and tiles.

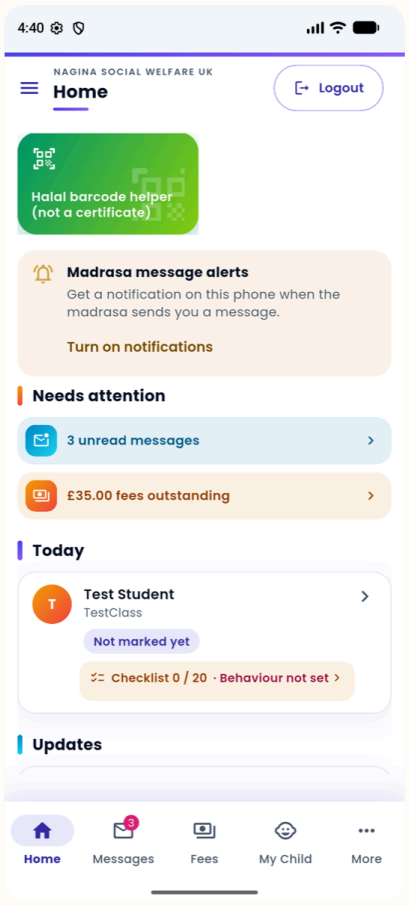

Figure 4. Further down Home: alerts, Needs attention, and Today.

Messages, Fees, and My Child

- **Messages** is every notice and email the madrasa has sent you. Open a message to read it. Chapter 8 explains it in full.
- **Fees** shows Total Fee, Total Paid, and Due for the selected child, with **Pay with card** when something is due, the monthly fee list, and the payment history (chapter 9).
- **My Child** has the same tabs as the web portal: Overview, Attendance, Leave, Madrasa life, Learning, Term report, Daily checklist, and Let's Learn Islam. Slide the tab row sideways to reach the later tabs (chapter 10).

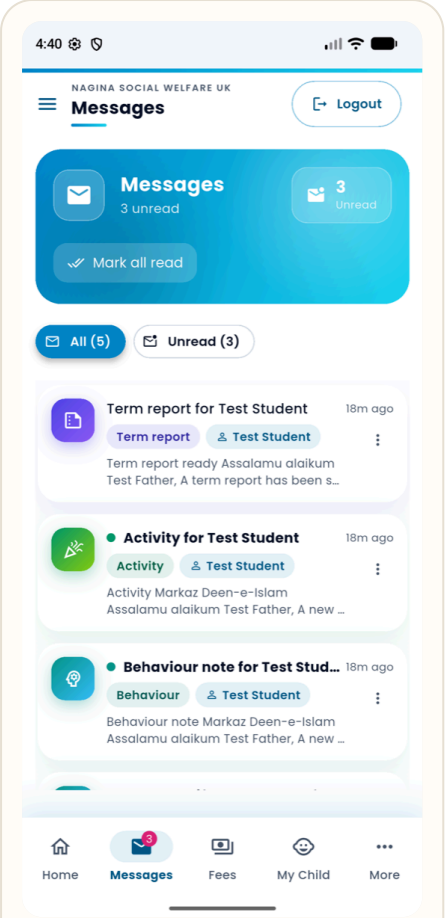

Figure 5. Messages.

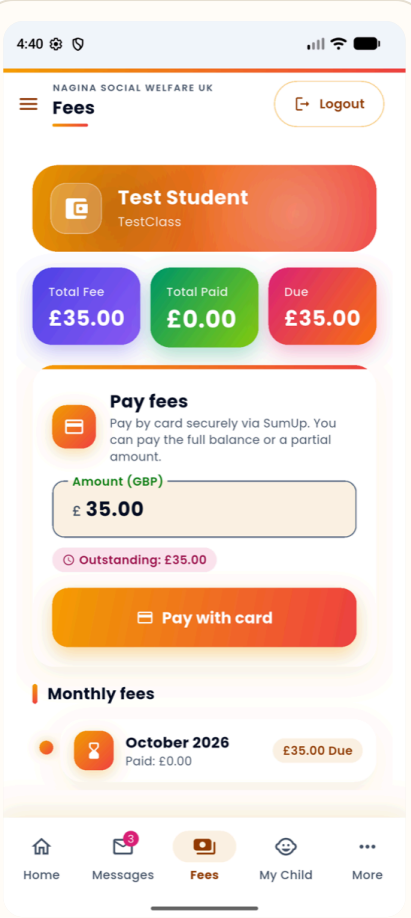

Figure 6. Fees.

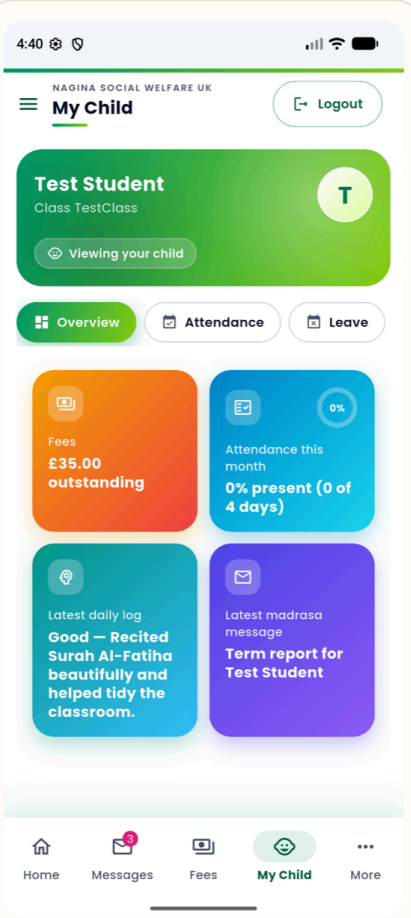

Figure 7. My Child.

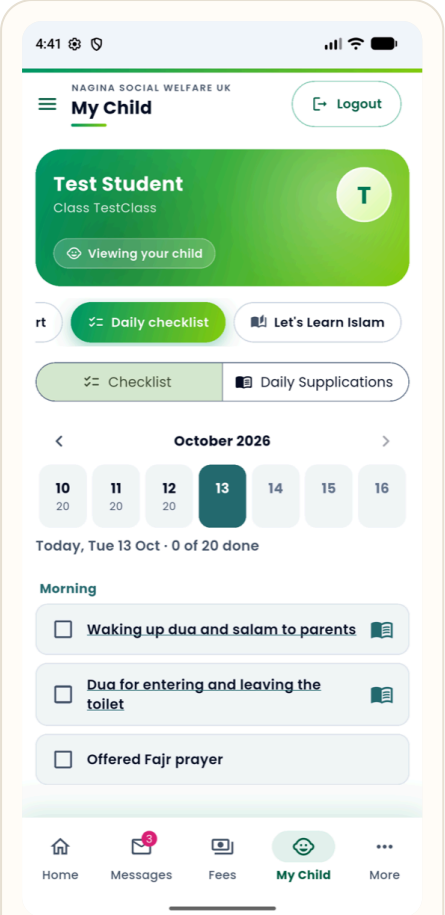

Figure 8. Daily checklist.

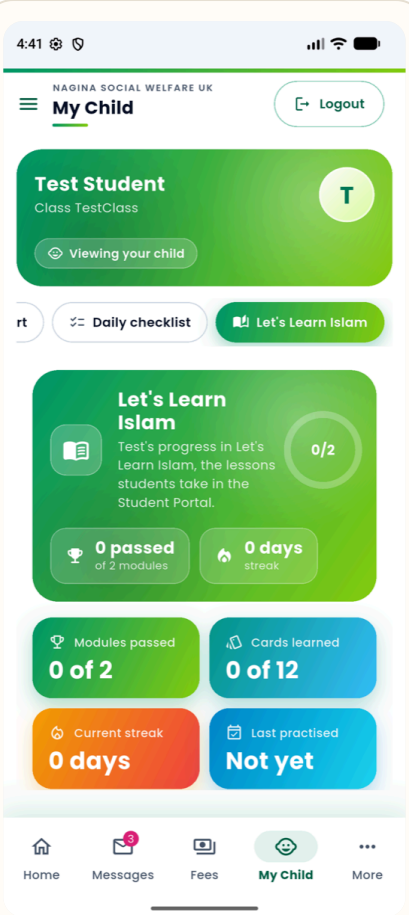

Figure 9. Let's Learn Islam progress.

More and My Profile

More opens a sheet with **Contact**, **My Profile**, and **Logout**. Contact has your branch's email, phone, WhatsApp, Give Sadaqah, and directions. My Profile is where you correct your name, phones, address, and email, and change your password. To change the email or password, type your current password as well.

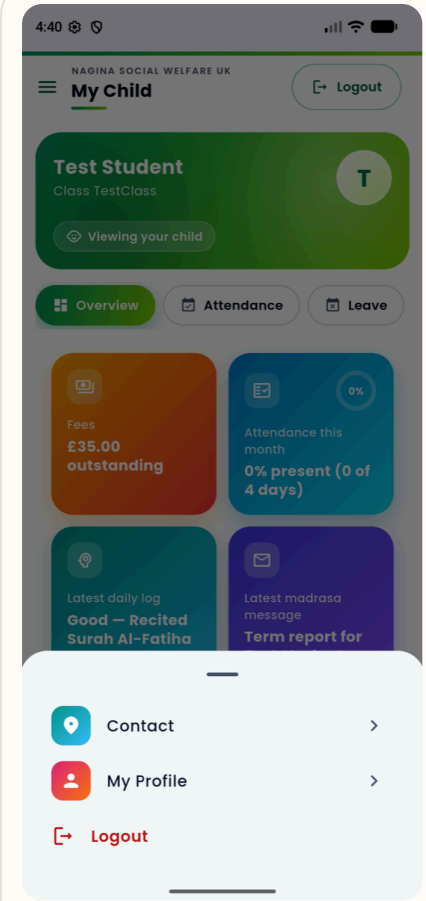

Figure 10. The More sheet.

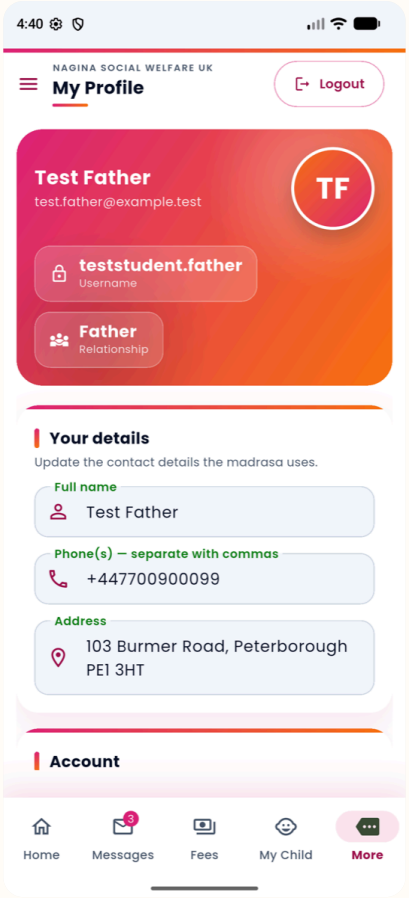

Figure 11. My Profile in the app.

Updates

When a new version is published, the app shows **Update required**. Tap **Update now**, and Google Play installs the new version before you carry on. Everyone stays on the latest version.

If the app keeps asking you to sign in. Check that Remember me was ticked. If the office has just reset your password, every phone is signed out for safety, so sign in again with the new password.

4. Open the web portal like an app

On iPhone, a computer, or any browser, the parent web portal can sit on your home screen or in the Dock. It opens in its own window, without the usual browser tabs. Use the same address and the same sign-in. The icon is labelled **Markaz Admin**.

If you open the web portal on Android

On an Android phone, the parent web portal suggests the app. The sign-in page shows **On Android? Get the Parent Portal app**, and Home shows a card with **Get it on Google Play**. Tap either one to open the Play Store page, or tap **Not now** to keep using the browser. The card then stays hidden on that phone.

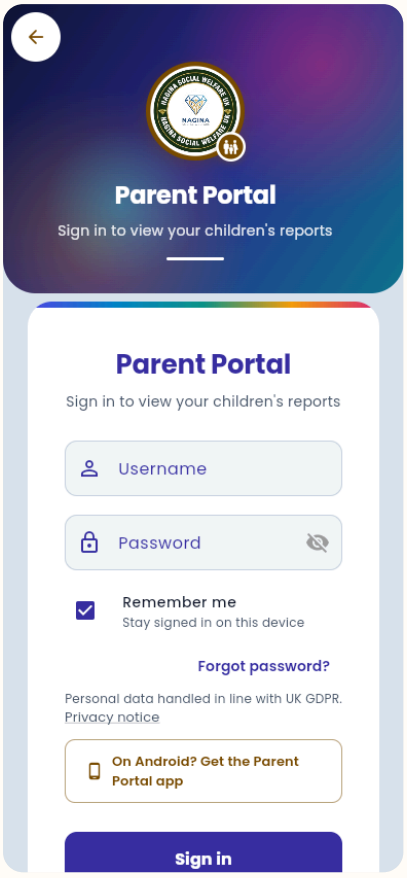

Figure 12. The sign-in page on an Android browser.

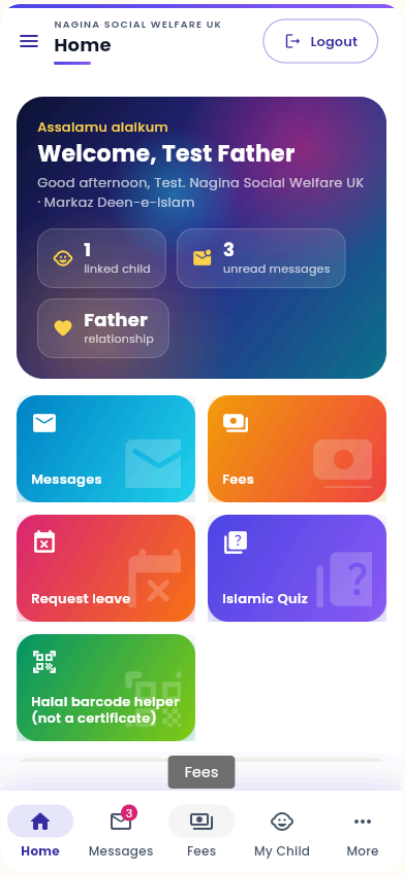

Figure 13. Home on an Android browser.

Chrome on a computer

1. Open Chrome and go to `https://admin.naginasocialwelfare.co.uk`.
2. At the right of the address bar, click the install icon (a small screen with an arrow), then **Install**.
3. If that icon is missing, click the three-dot menu, then **Cast, save, and share**, then **Install page as app**.
4. The portal opens in its own window. You can also open it later from the Dock or the Start menu.

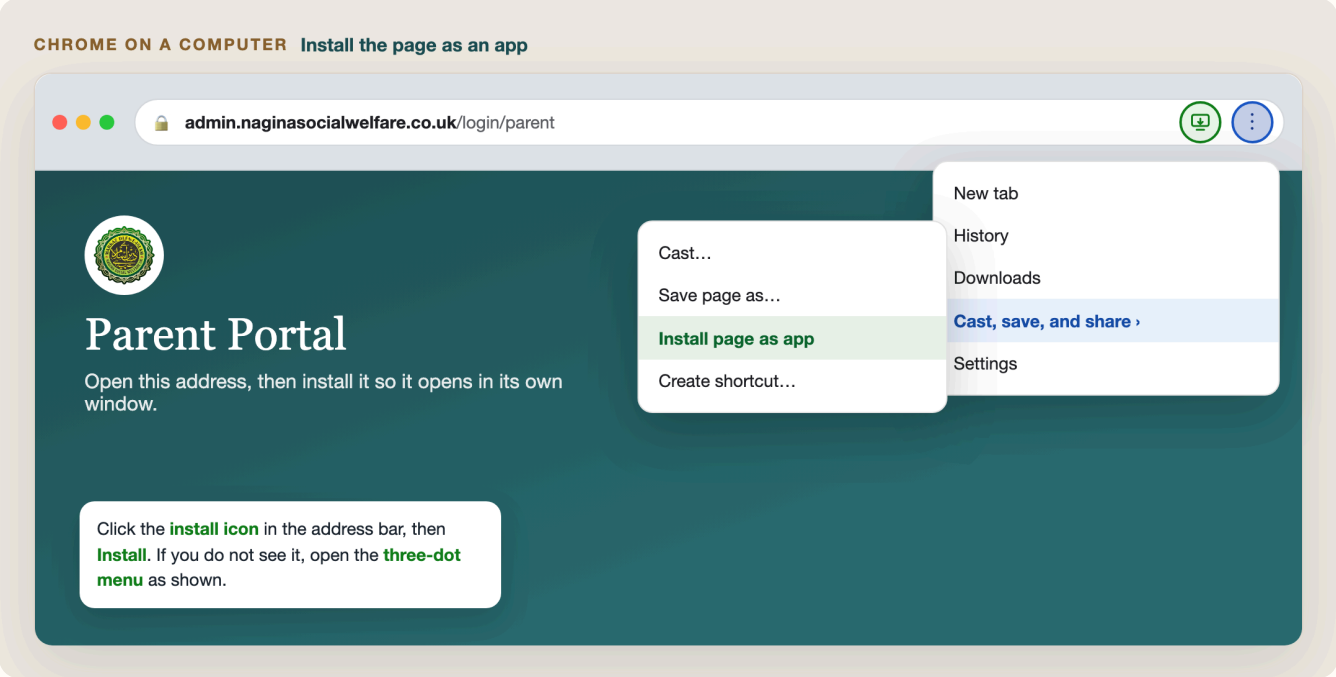

Figure 14. Chrome on a computer. Use the install icon, or the three-dot menu.

Chrome on Android

The Play Store app is the better choice on Android. Use this only if you want the web portal itself on the home screen as well.

1. Open the parent web portal in Chrome.
2. Tap the three-dot menu at the top right.

3. Tap **Install app**. If you only see **Add to Home screen**, tap that instead.

4. Confirm. The Markaz Admin icon appears on the home screen.

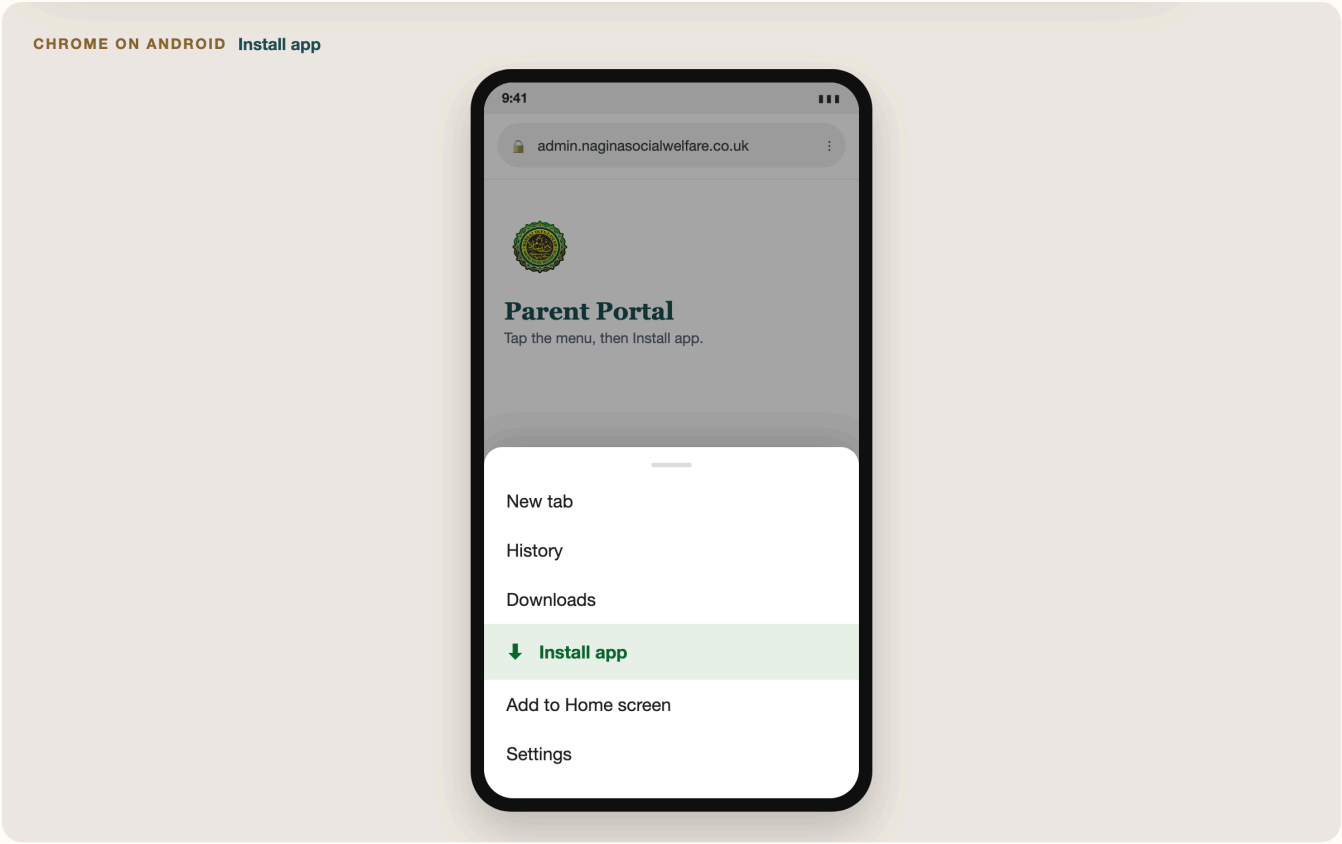

Figure 15. Chrome on Android. Install app, or Add to Home screen.

Safari on iPhone

This is the way to use the portal on an iPhone while the App Store app is still coming.

1. Open the parent web portal in **Safari**. Other browsers on iPhone do not offer Add to Home Screen in the same way.

2. Tap the **Share** button (the square with an arrow).

3. Scroll the share sheet and tap **Add to Home Screen**.

4. The name shown is Markaz Admin. Tap **Add**.

5. Open the new icon from the Home Screen and sign in.

Safari on a Mac

1. Open the parent web portal in Safari.
2. In the menu bar, choose **File**, then **Add to Dock**.
3. Click **Add**.
4. Open Markaz Admin from the Dock. It uses a simple window, without Safari's full toolbar.

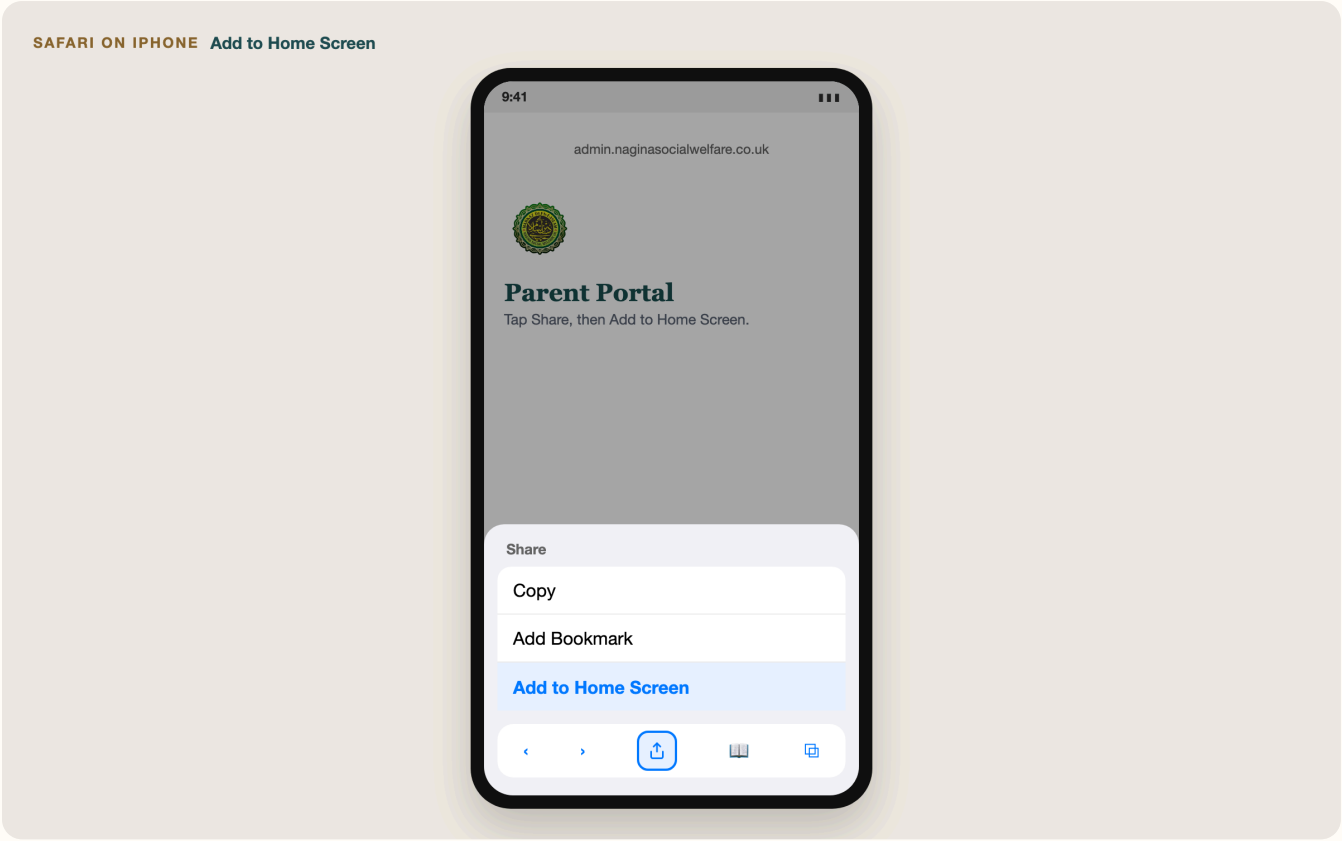

Figure 16. Safari on iPhone. Share, then Add to Home Screen.

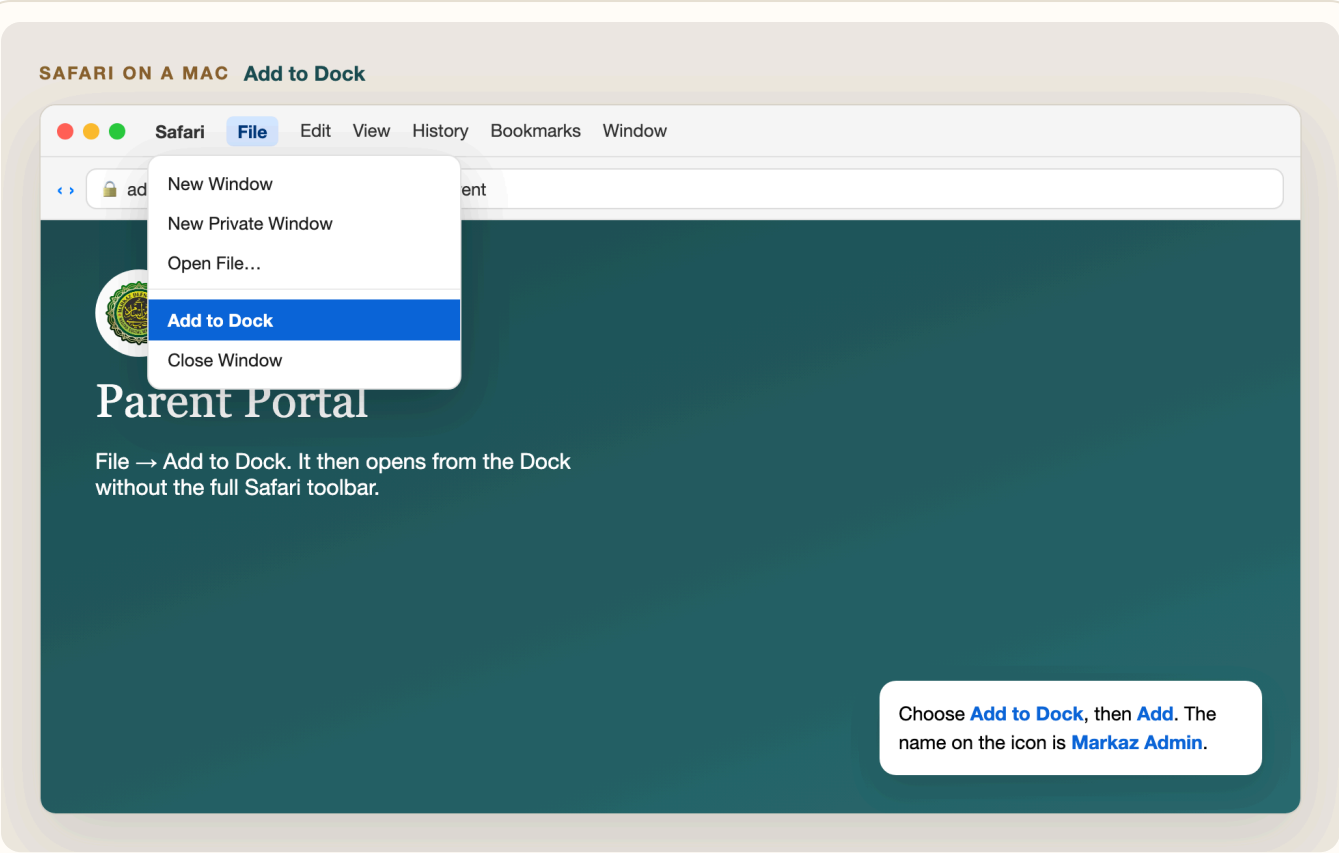

Figure 17. Safari on a Mac. File, then Add to Dock.

5. Open the web portal

The first screen asks you to choose a portal. Parents use the **Parent** card. The other cards are for admins, teachers, students, collectors, Islamic quizzes, and the Halal barcode helper.

1. Open `https://admin.naginasocialwelfare.co.uk`
2. On the Parent card, press **Continue**.
3. You land on the Parent Portal sign-in page. You can also go straight there at `https://admin.naginasocialwelfare.co.uk/login/parent`.

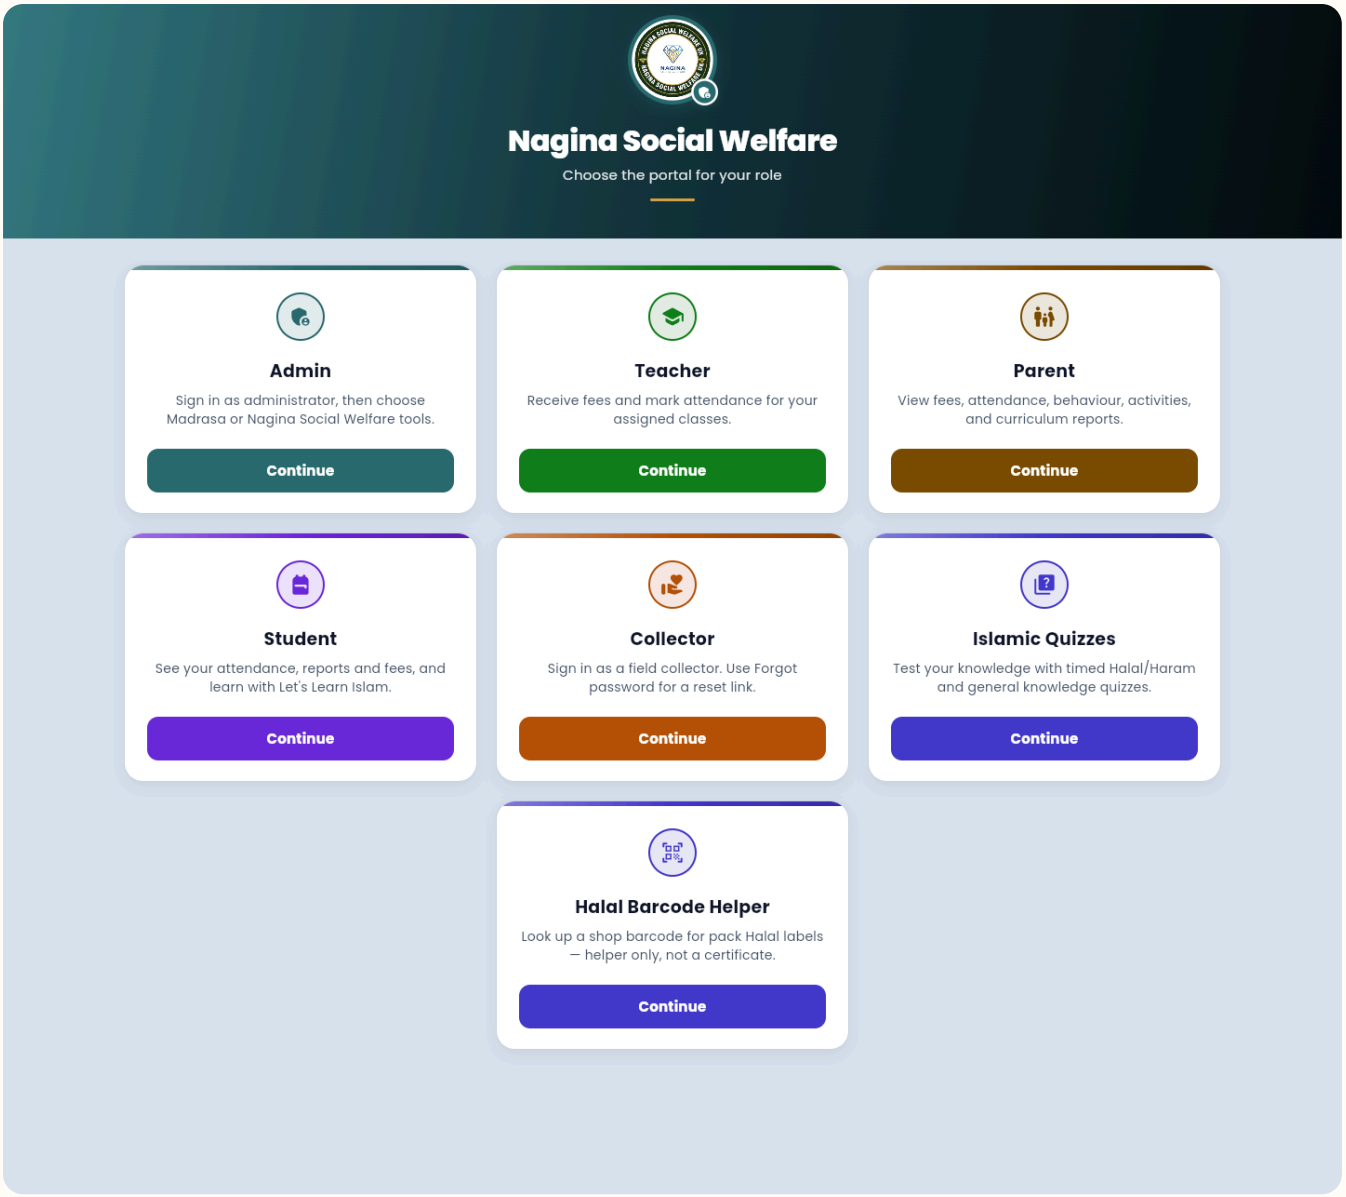

Figure 18. Choose Parent, then Continue.

6. Sign in

The sign-in card asks for username and password. **Remember me** is ticked already and keeps you signed in on this browser. Untick it on a shared computer.

1. Type your username.
2. Type your password. The eye icon shows or hides it.
3. Press **Sign in**.
4. Home opens, with your name in the welcome banner and your branch's name beneath it.

A wrong username or password shows "Invalid username or password." Check the username with the office before trying again and again.

After you are in, the left menu is Home, Messages, Fees, My Child, Contact, and My Profile. Your name and **Logout** sit at the top right. Logout ends the session on this browser.

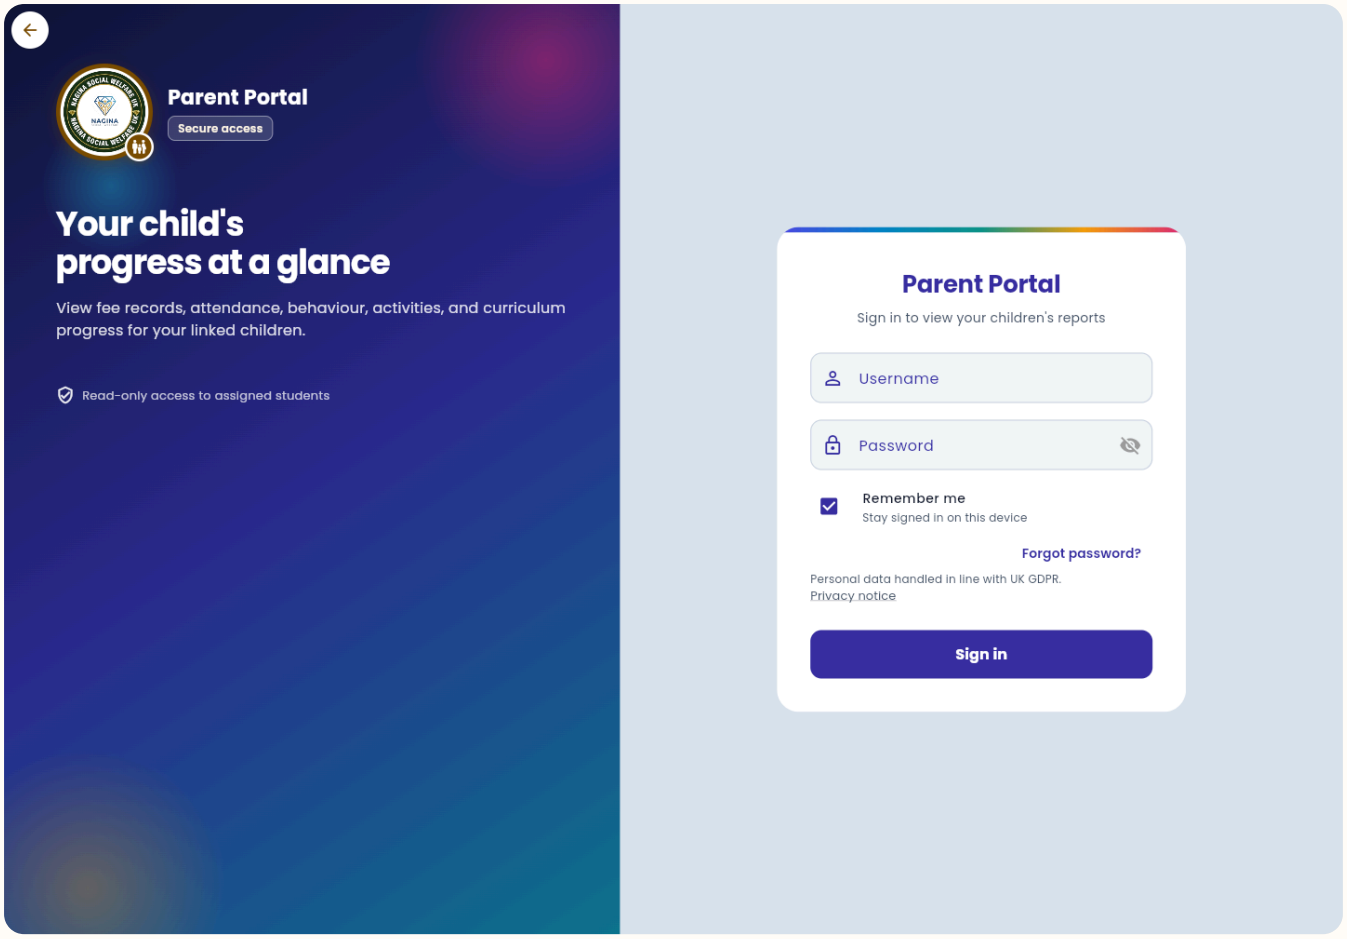

Figure 19. Parent sign-in. Use your username, not your email.

Forgot password

On the sign-in page, press **Forgot password?**. Enter the email or username on your parent record, then **Send link**. Open the email and follow the link to choose a new password. Use **Cancel** if you opened the box by mistake.

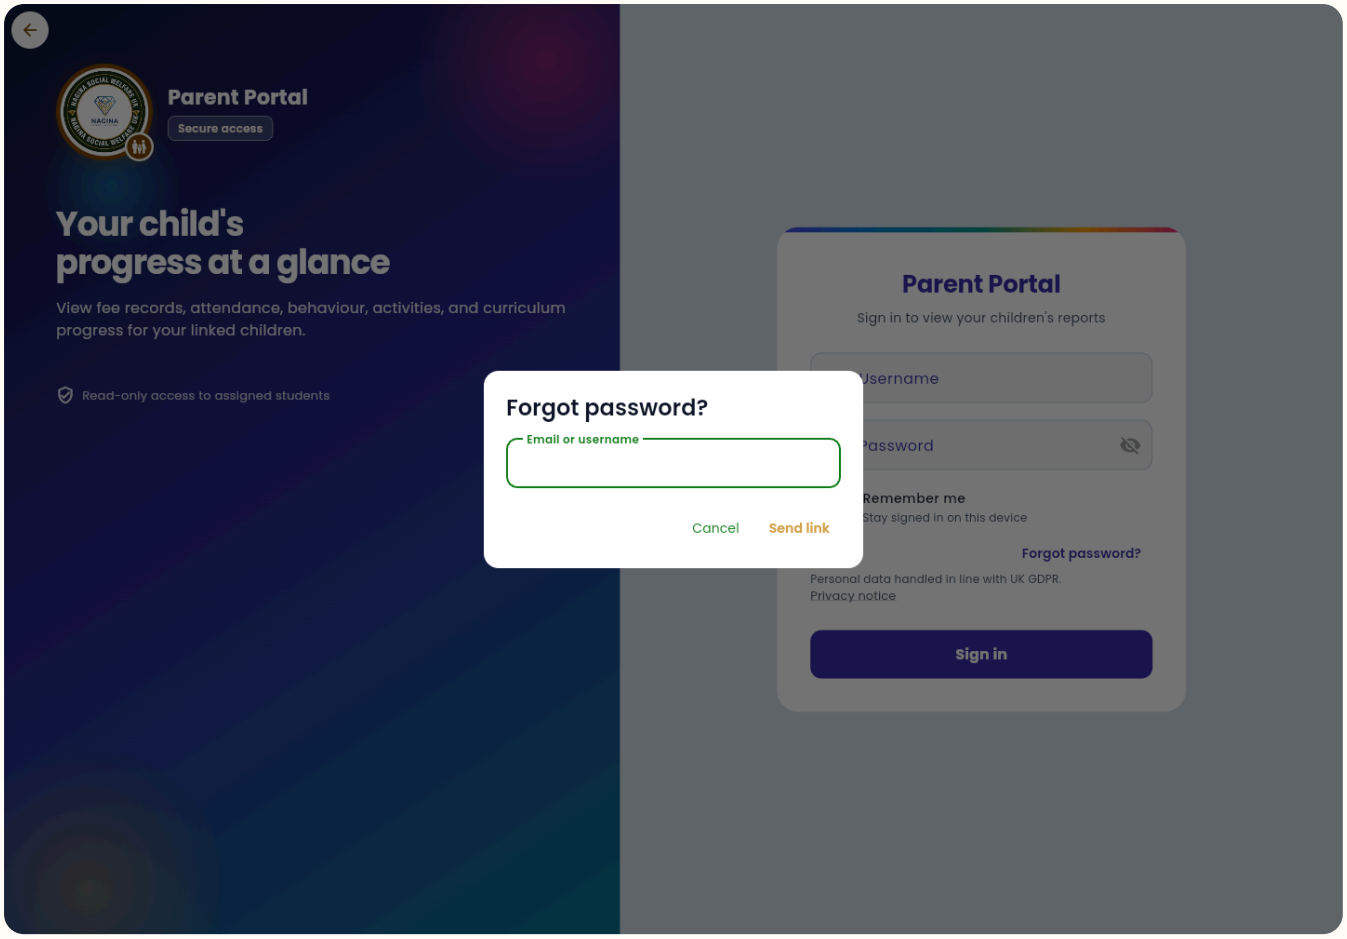

Figure 20. Request a reset link.

First-time invite

When the office creates your account, you receive an email with a setup link. Open that full link. It opens a page titled “Set up your parent account,” where you choose a password. After that you go to Home. The same password then works in the Android app.

If the link is incomplete, the page says **Invite link incomplete**. Use the whole link from the email, or ask the office to send a new invitation. Do not try to type the setup address yourself without the token.

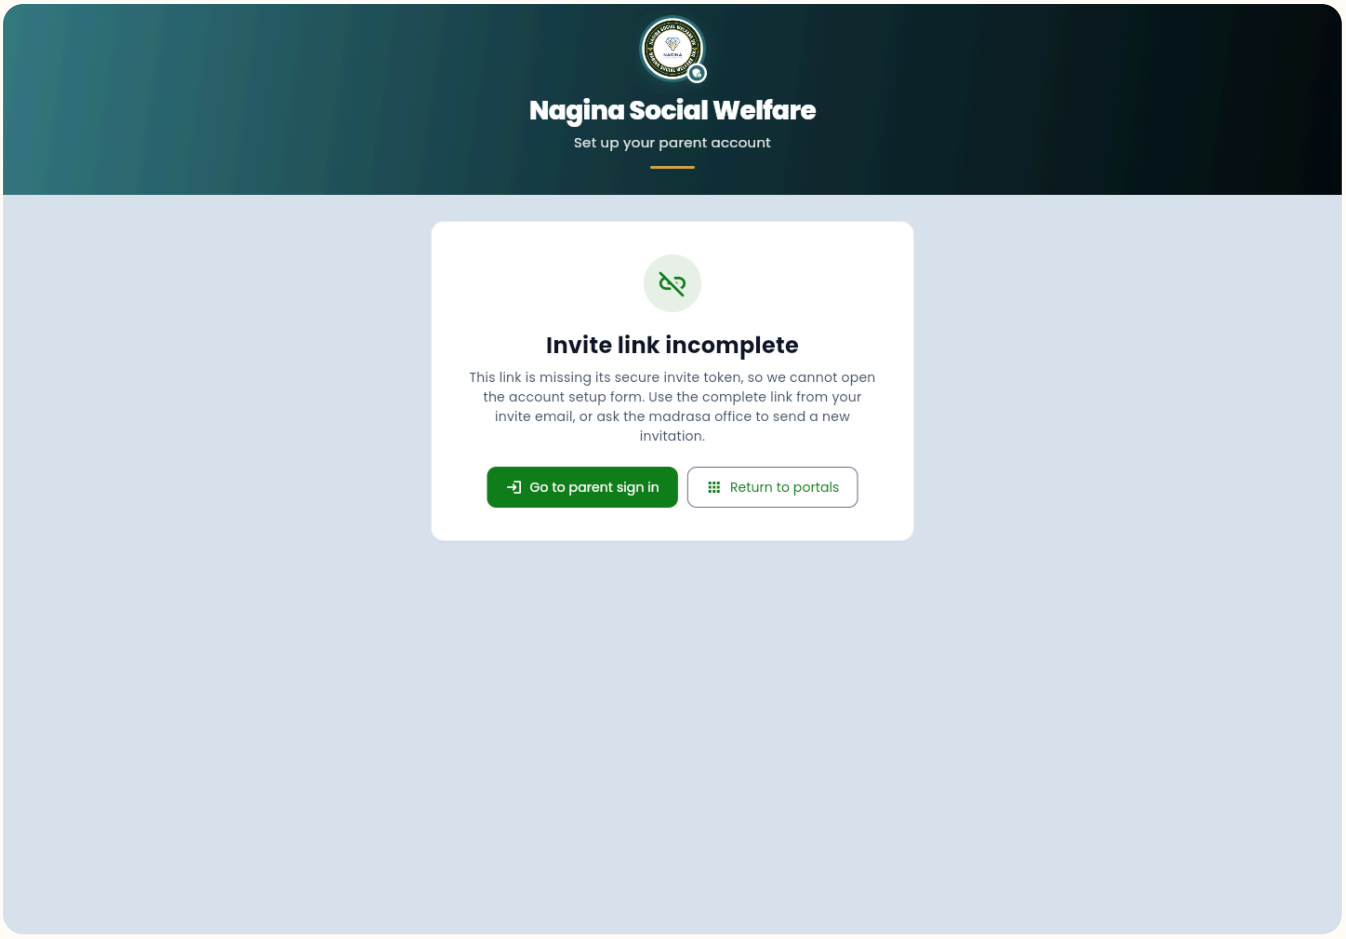

Figure 21. This is what an incomplete invite link looks like. A real invite email opens the password form instead.

7. Home

Home is the summary after you sign in. It points you to the pages that need you today.

- **Welcome banner.** Your name, a greeting, and your branch. The three chips count linked children and unread messages, and show your relationship (for example Father).
- **Colour tiles.** Messages, Fees, Request leave, Islamic Quiz, and the Halal barcode helper. Tap a tile to go straight there.
- **Alerts card.** Offers browser alerts for absences, fees, leave, and announcements. **Enable alerts** turns them on. **Not now** hides the card. Email and Messages work either way.
- **Needs attention.** Unread messages, fees outstanding, attendance paused because of unpaid fees, and leave requests waiting for approval. Tap one to go straight to it. When there is nothing, it says “Nothing needs your attention.”
- **Today.** One row per child: class, whether today’s register has been taken, and how much of today’s daily checklist is done. Tap the row to open My Child, or the checklist chip to open the checklist.
- **Updates.** The latest messages from the madrasa for your household, newest first, with **See all messages** at the bottom.
- **Madrasa card.** Your branch’s address, Email, phone, WhatsApp, Give Sadaqah, and a link to the map page.

Islamic Quiz and Halal barcode open other tools on the same parent web portal. The quiz is a timed practice quiz. The barcode helper looks up a shop label. It is a helper, not a Halal certificate.

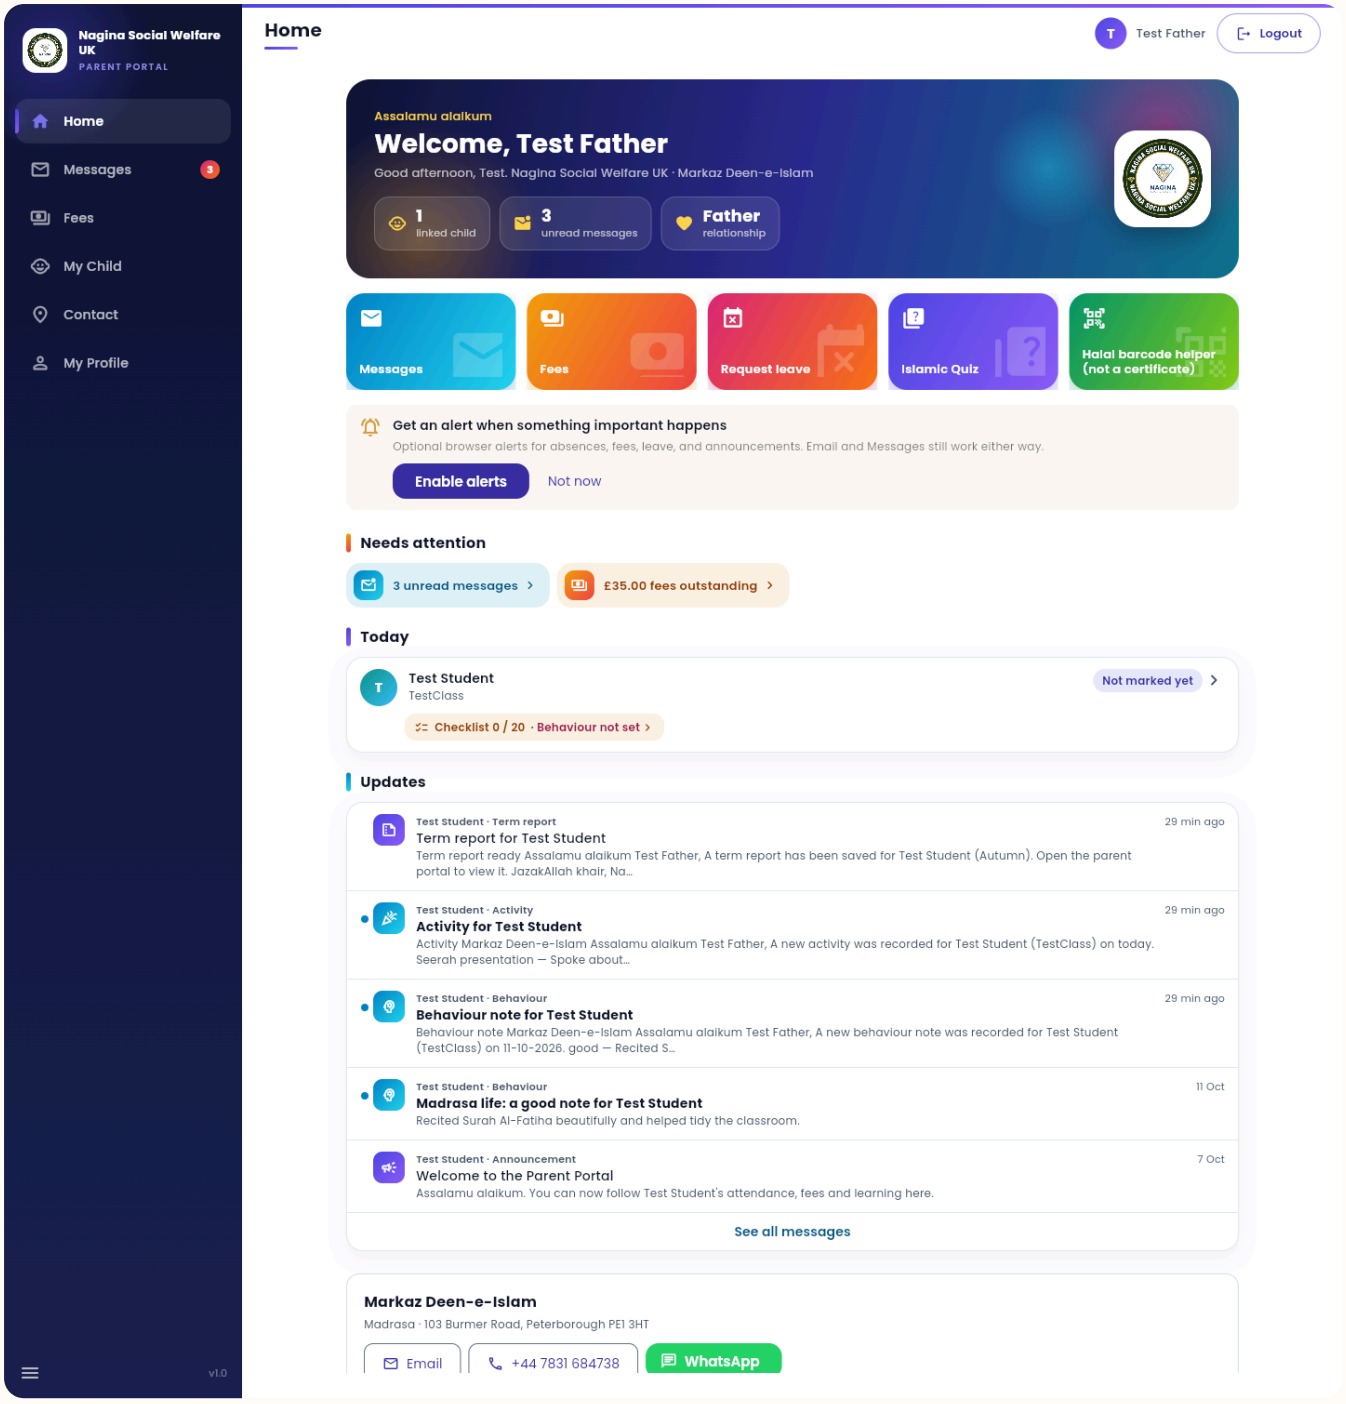

Figure 22. Home after sign-in, for a Peterborough parent.

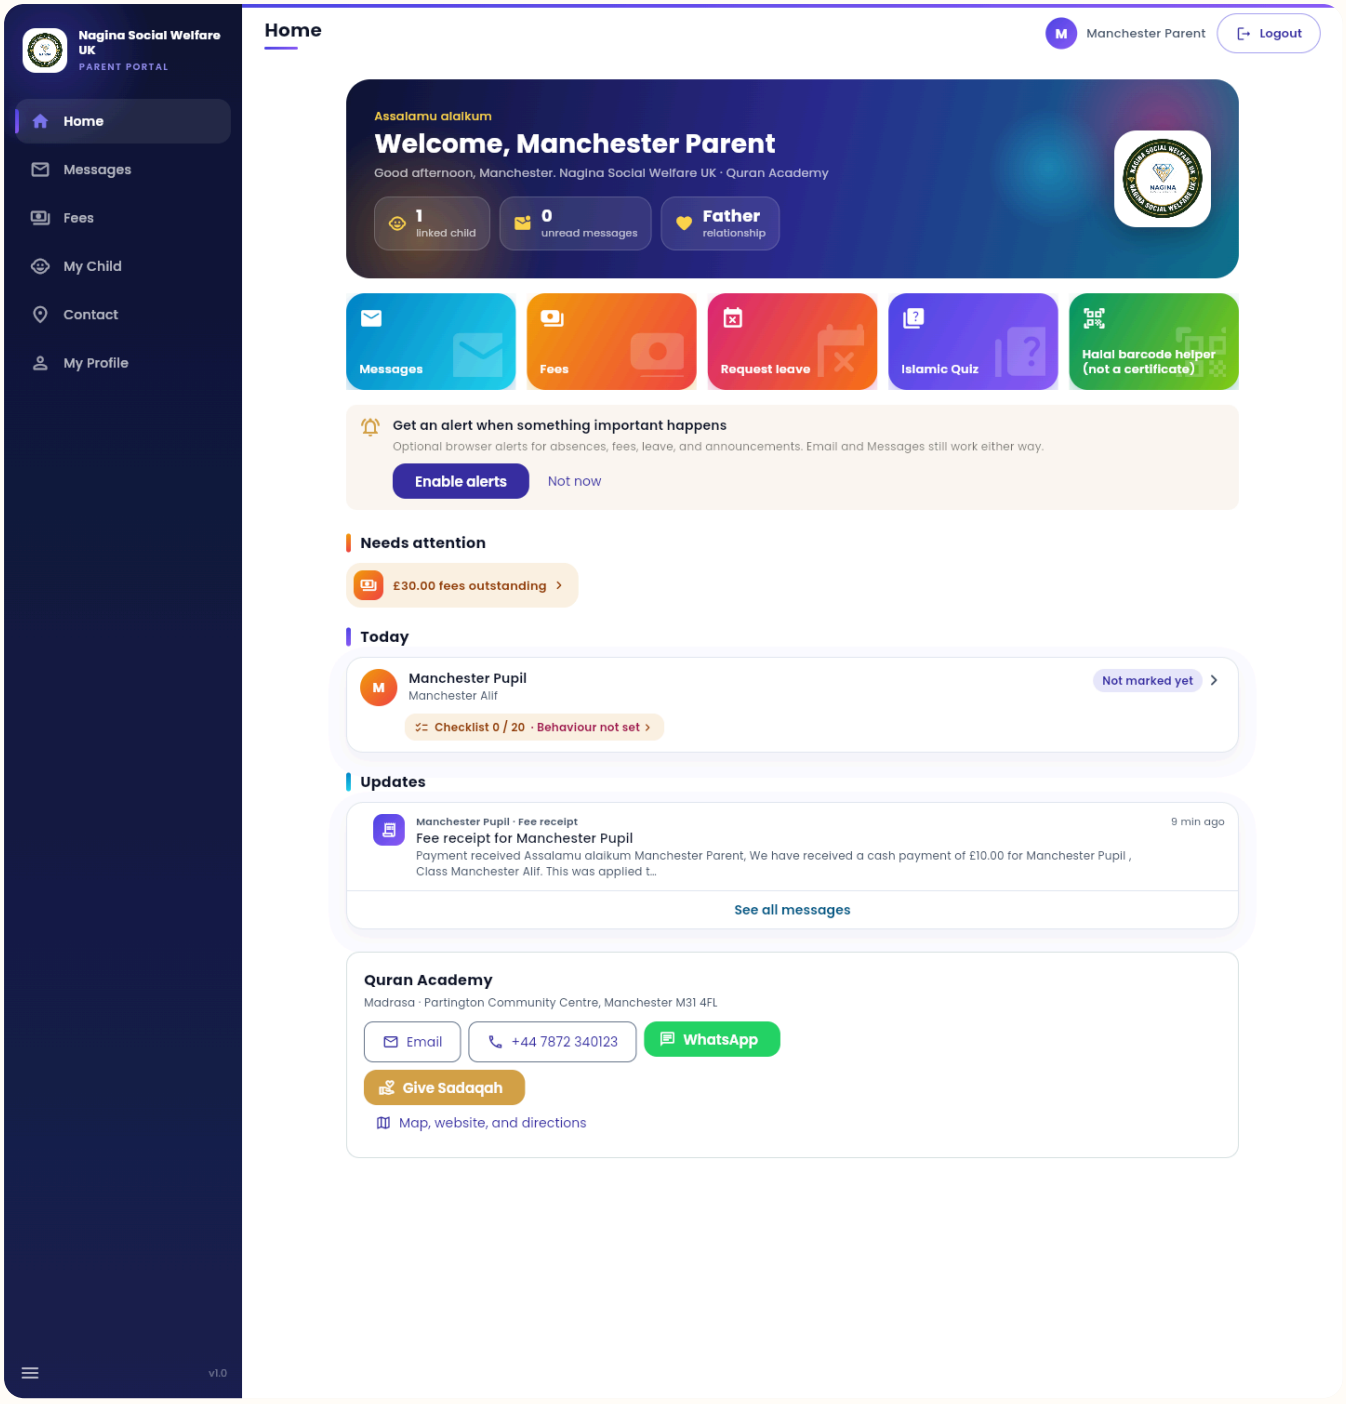

Figure 23. The same Home for a Manchester parent. The banner and the contact card show Quran Academy.

8. Messages

Messages is the copy of emails the madrasa sends you. It is not a chat. You read notices here. You do not reply inside the portal.

The blue header shows how many are unread, with **Mark all read**. Under it, **All** and **Unread** switch the list. Each message carries a category chip (for example Announcement, Behaviour, Activity, Term report, Fee receipt, Leave request) and the child it is about.

1. Switch between **All** and **Unread**.
2. If you have more than one child, filter by child, or show all children.
3. Open a message to read it. Opening it marks it read. On a wide screen the list stays on the left and the open message on the right. On a phone, the message opens on its own.
4. Use **Mark as unread** if you want it highlighted again, or the three dots on a message for the same options.

Typical notices are announcements, absence marks, fee receipts, fee reminders, fee waivers, term reports, leave decisions, Madrasa life notes, and Star of the Week. An unread count also appears on Home and on the Messages item in the menu. Older emails sent before this inbox existed are not copied in automatically.

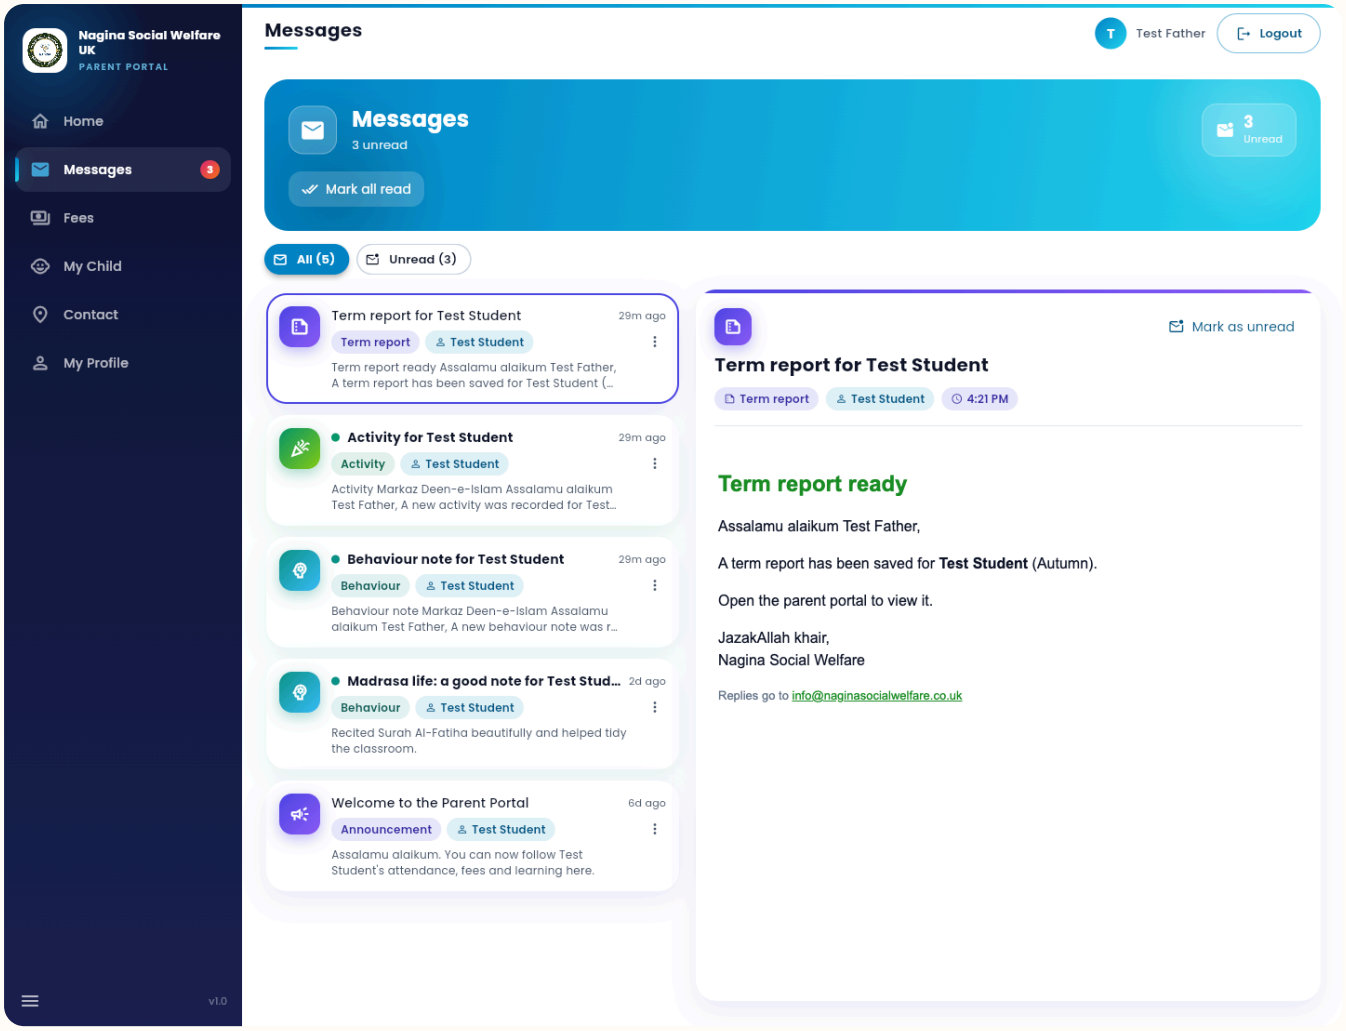

Figure 24. Messages, with the latest term report notice open.

9. Fees

Fees shows money for the selected child. The three boxes are **Total Fee**, **Total Paid**, and **Due**. Under them are the **Pay fees** card, the **Monthly fees** list, and the **Payment history**.

In the picture, Test Student's fee for October is £35.00, nothing has been paid, and £35.00 is due. The monthly amount is set by your branch, so a Manchester parent sees Quran Academy's fee.

1. Open **Fees** in the left menu, the Fees tile on Home, or the fees item under Needs attention.
2. If more than one child is linked, use the child chips at the top.
3. Read the due amount. £0.00 means nothing is outstanding. A due amount above zero means there is a balance to pay.
4. When an amount is due, the **Pay fees** card appears with the balance filled in. Change the amount if you want to pay only part of it. **Pay with card** opens a secure SumUp page.
5. After a successful card payment you return to Fees, with a short thank-you note. The payment then shows under Payment history.

Cash taken at the madrasa is recorded by staff. It shows in payment history after they save it. You cannot edit fee amounts yourself. The picture below was not used to start a payment.

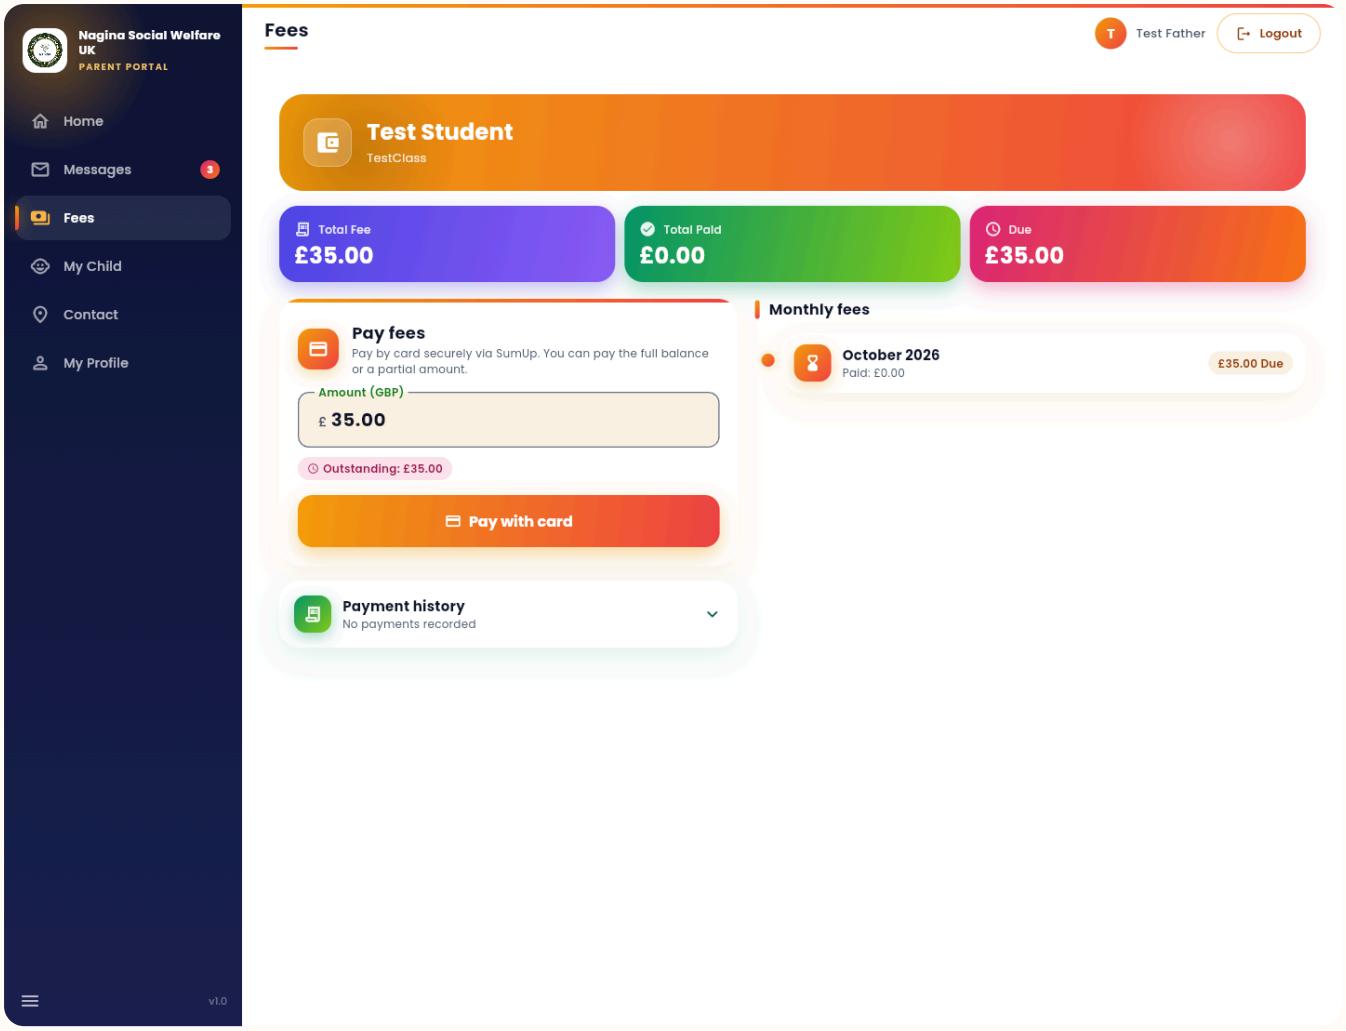

Figure 25. Fees with a balance ready to pay by card.

10. My Child

My Child is the record book for one student. The green header shows the child's name and class. With more than one linked child, **Select child** chips in the header change who you are looking at. Everyone else's children stay hidden.

Under the header are eight tabs: Overview, Attendance, Leave, Madrasa life, Learning, Term report, Daily checklist, and Let's Learn Islam. These pages are for reading, except Leave, where you can ask for time away, and Daily checklist, where you tick off your child's day.

Overview

Four cards summarise the child: fees outstanding, attendance this month, the latest daily log, and the latest madrasa message. Each card is a shortcut into the fuller page.

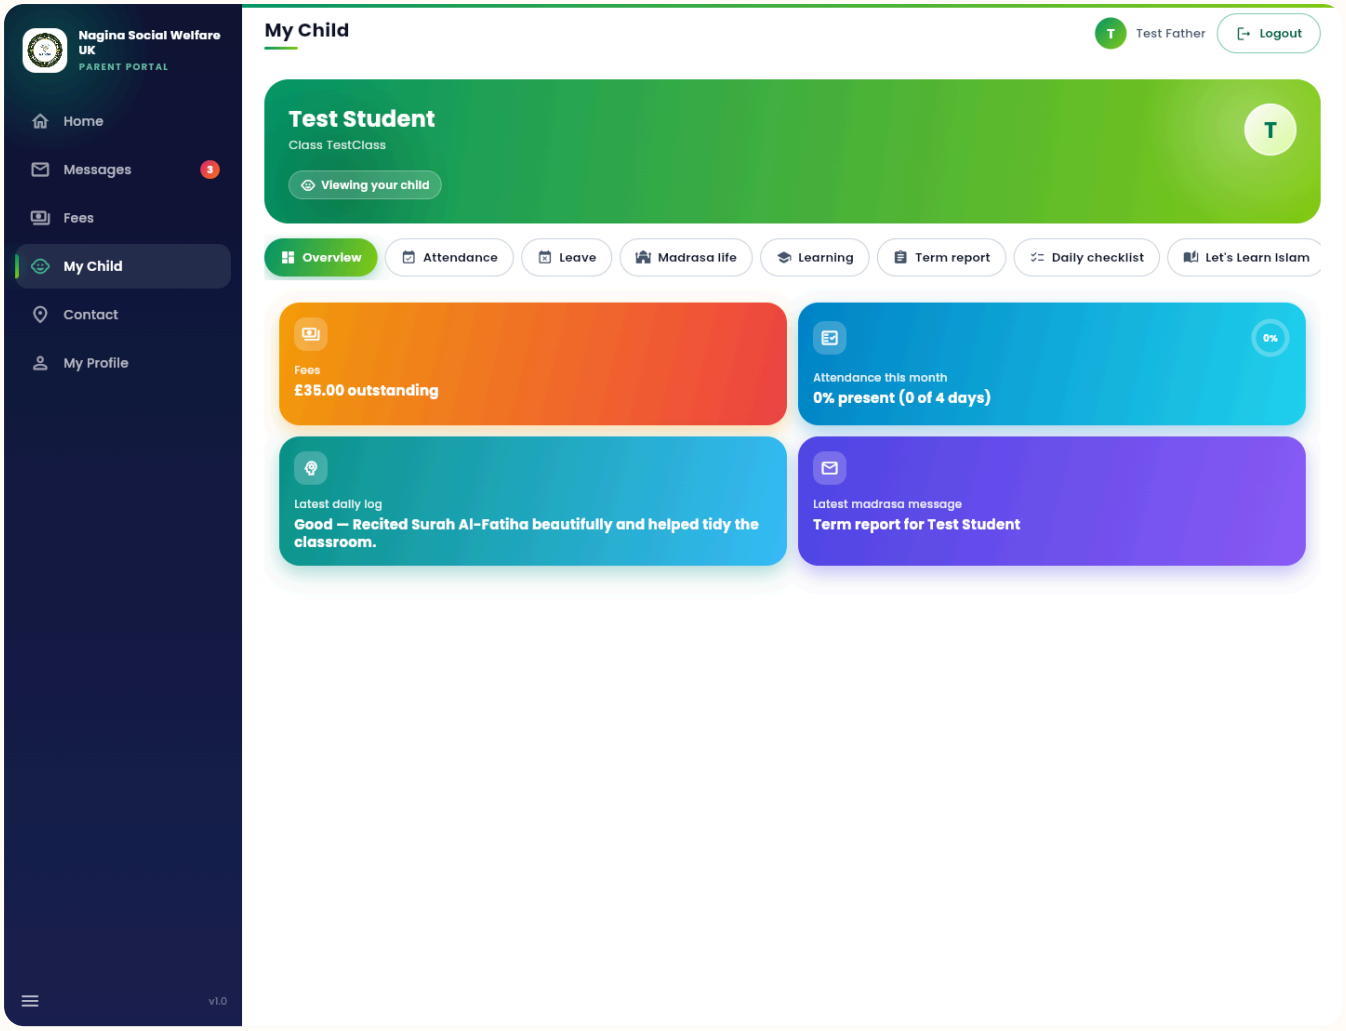

Figure 26. Overview for one child.

Attendance

The month bar moves with the arrows. The totals are Present, Late, Absent, Informed, Uniform, Behaviour, and the attendance rate. The calendar marks the days the teacher has saved, and the list under it shows each saved day. Informed days are absences the madrasa already knows about, including approved leave.

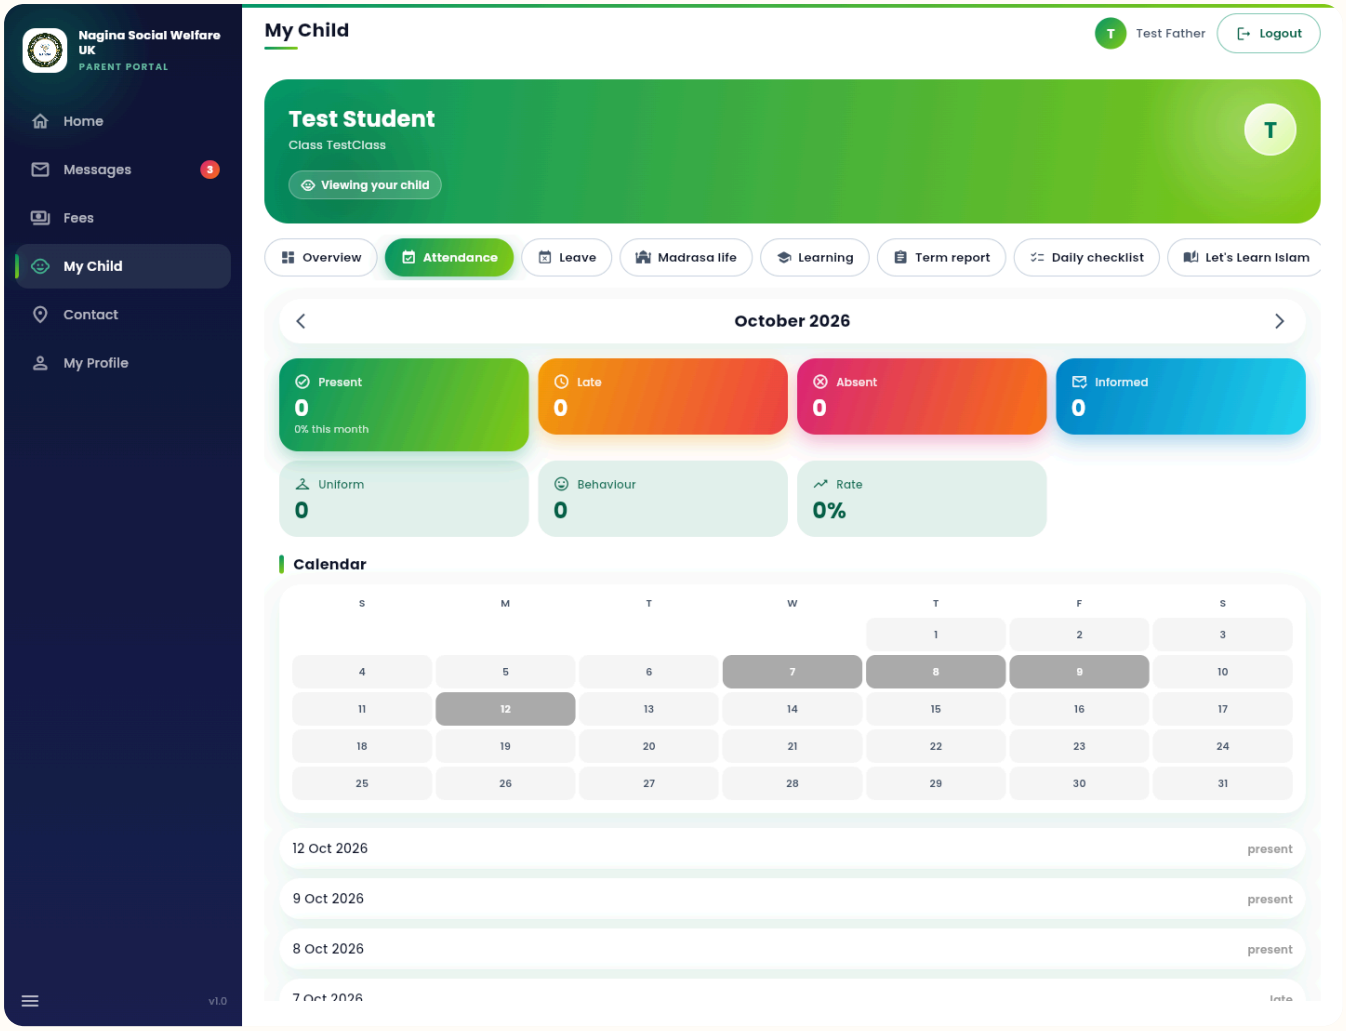

Figure 27. Monthly attendance.

Leave

Use this when your child will miss madrasa and you want the class teacher to approve it. Approved leave is stored as Informed attendance, so you are not sent an absence email for those days.

1. Open My Child, then **Leave**. You can also use the **Request leave** tile on Home.
2. Press **Request leave**.
3. Check the child. If several children are linked, tick each one who will be away. One submit covers the group.
4. Set **From** and **To**. The form shows how many calendar days that is.

5 Write a short reason, up to 500 characters.

6 Press **Submit request**. **Cancel** closes the form without sending it.

The list then shows each request as pending, approved, rejected, or cancelled. You can cancel a request only while it is still pending. The teacher's decision also arrives by email and in Messages.

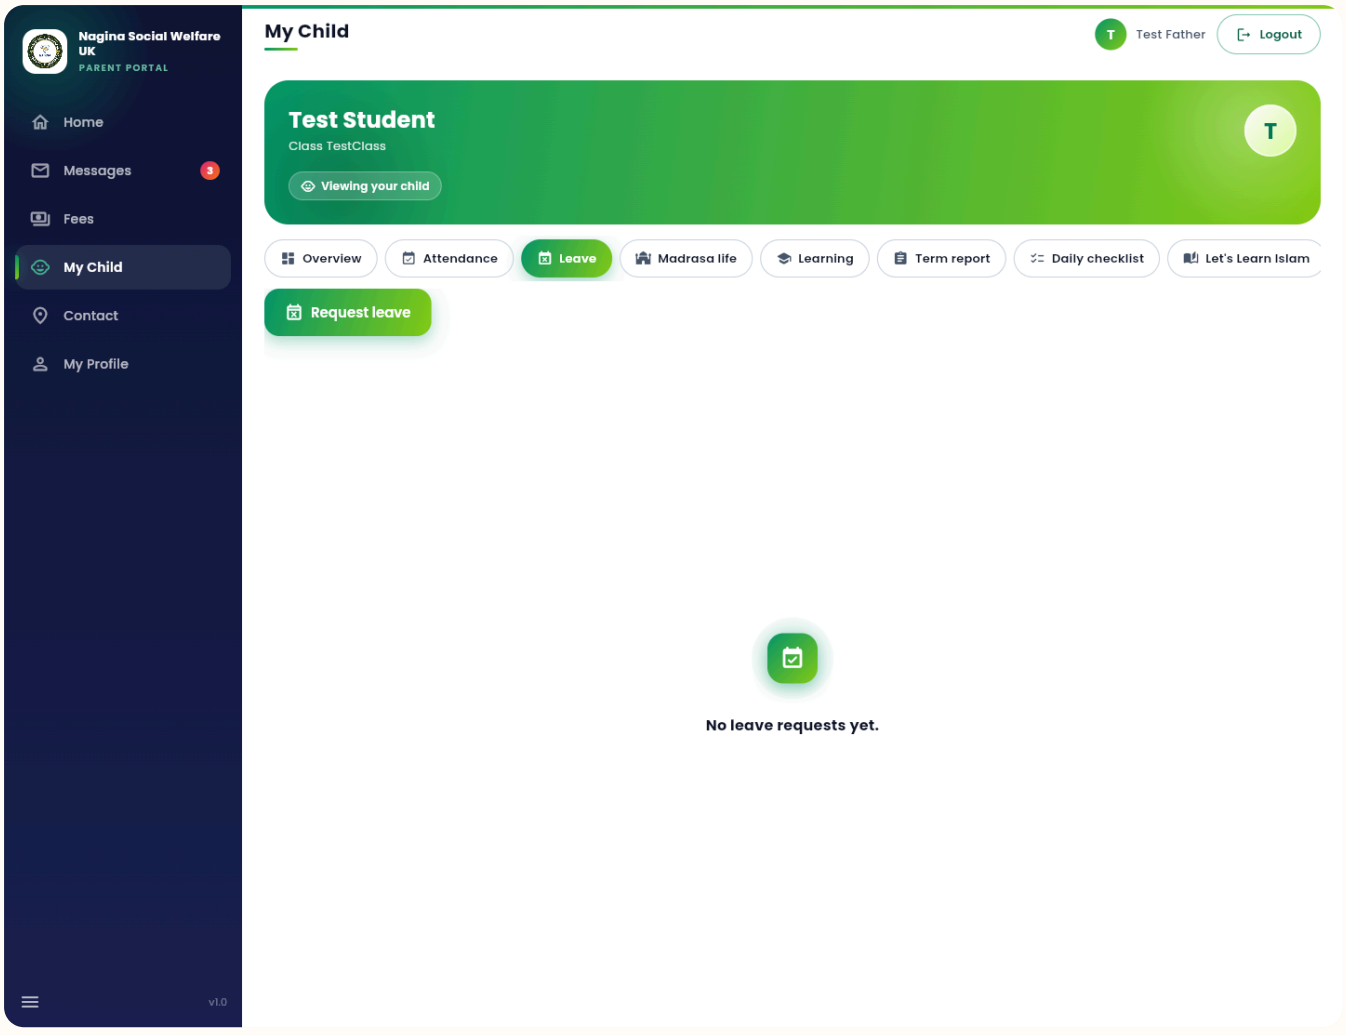

Figure 28. Leave list, before any request.

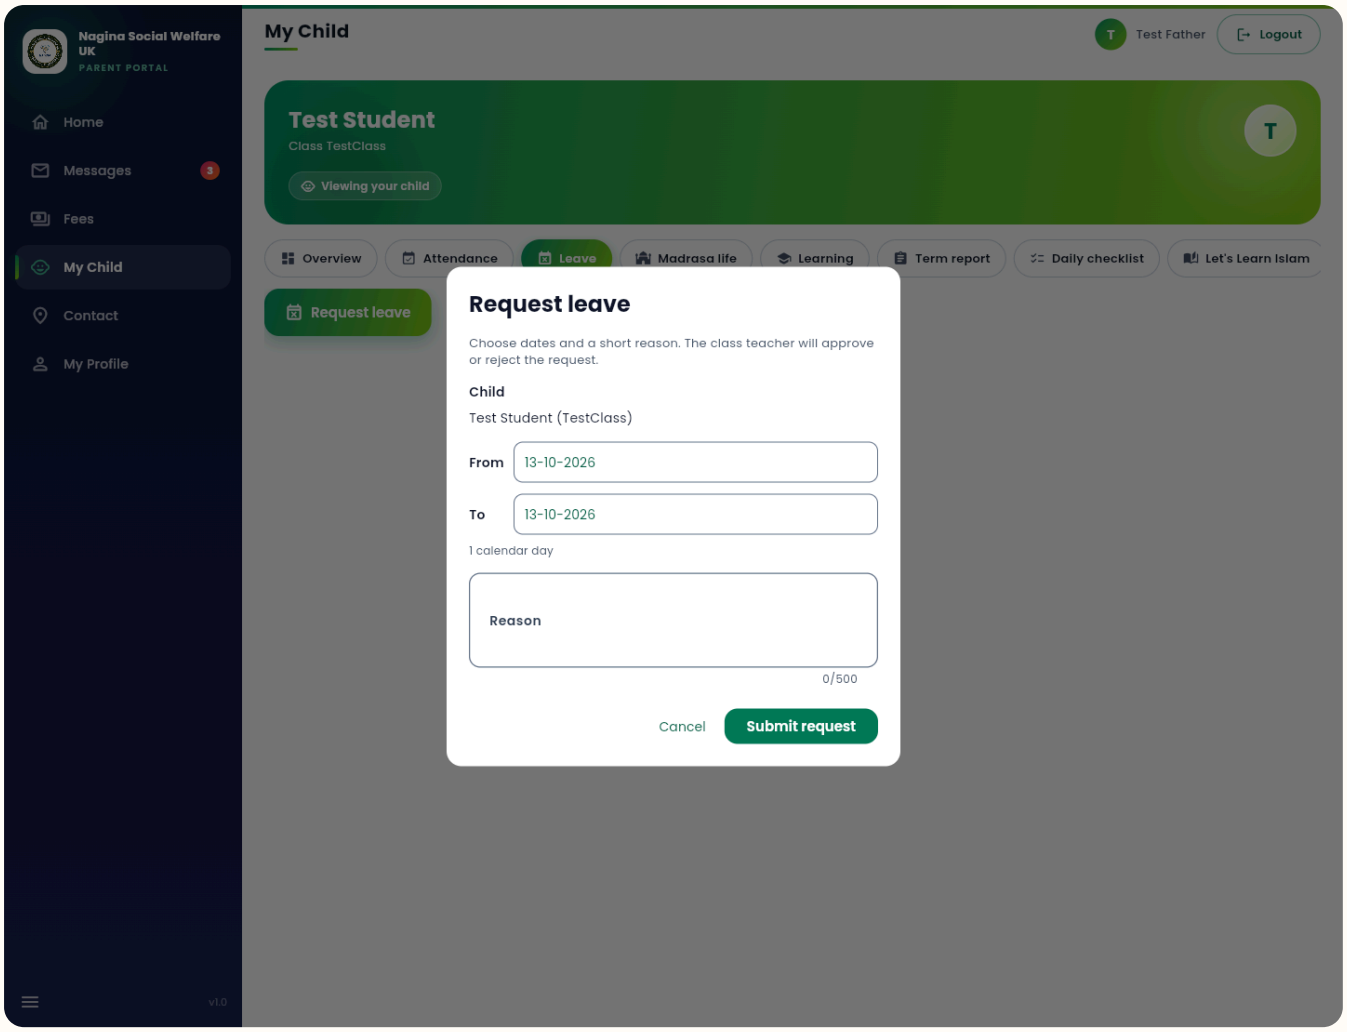

Figure 29. The request form. This picture was closed with Cancel, so nothing was submitted.

Madrasa life

Madrasa life is a date-ordered list of what teachers have written about the child outside the formal term report: behaviour notes, activities, and participation. Newest entries are at the top. You cannot add or edit them. A new note also arrives in Messages.

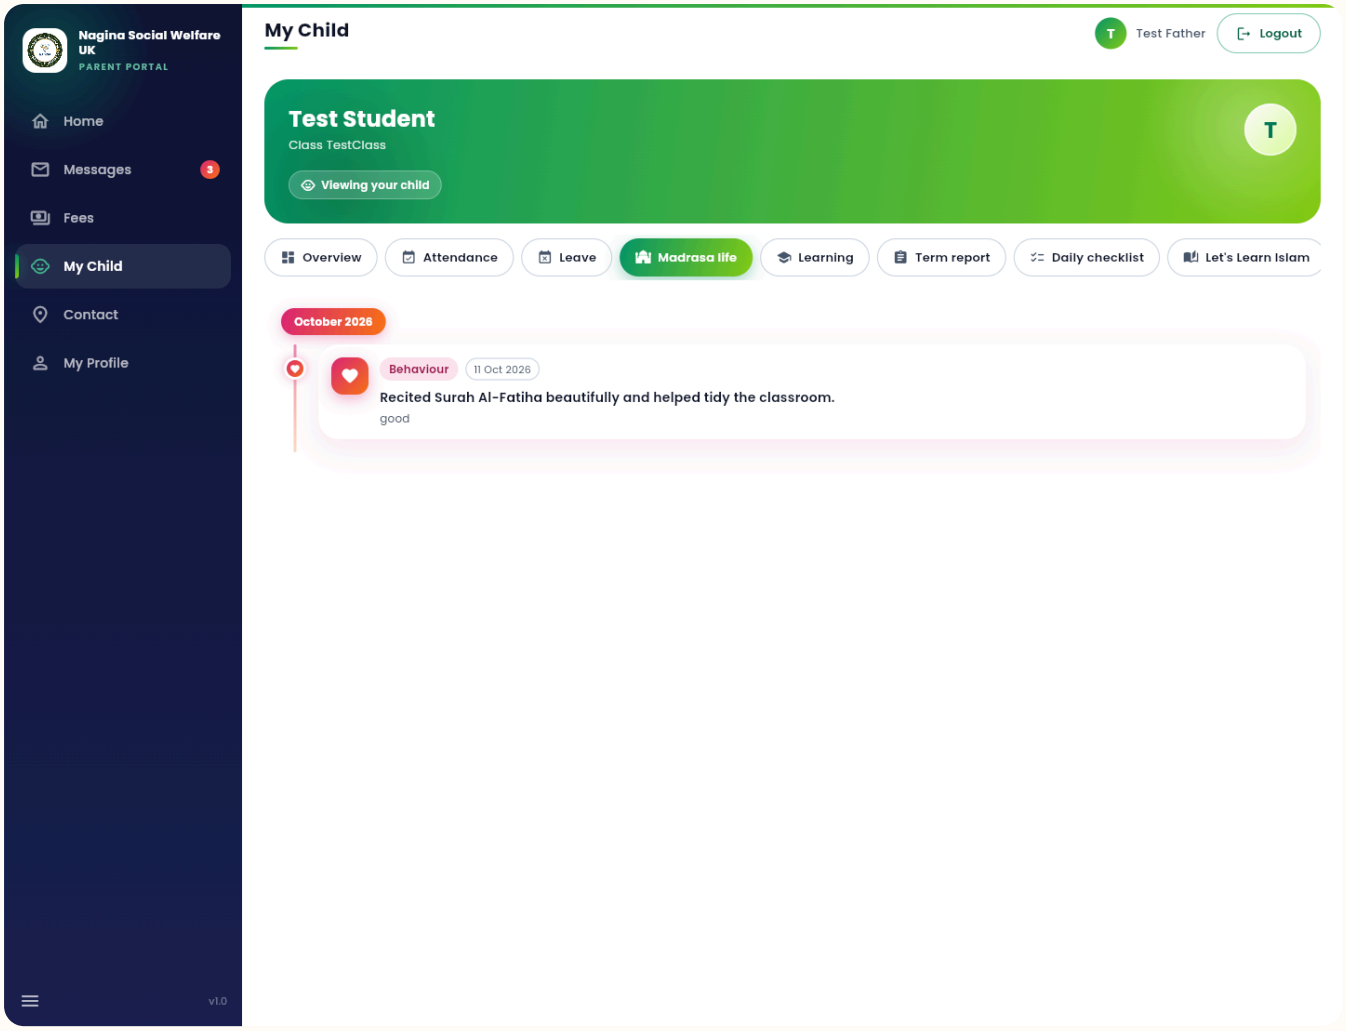

Figure 30. Madrasa life, with one behaviour note.

Learning

Learning shows the teacher's daily marks. It is view only. Tasks that were never attempted are hidden, so you see work that is completed or in progress.

The categories are Qaida, Quran, Surah Memorization, Duas, Islamic Education, and Participation. Open a category to see its list.

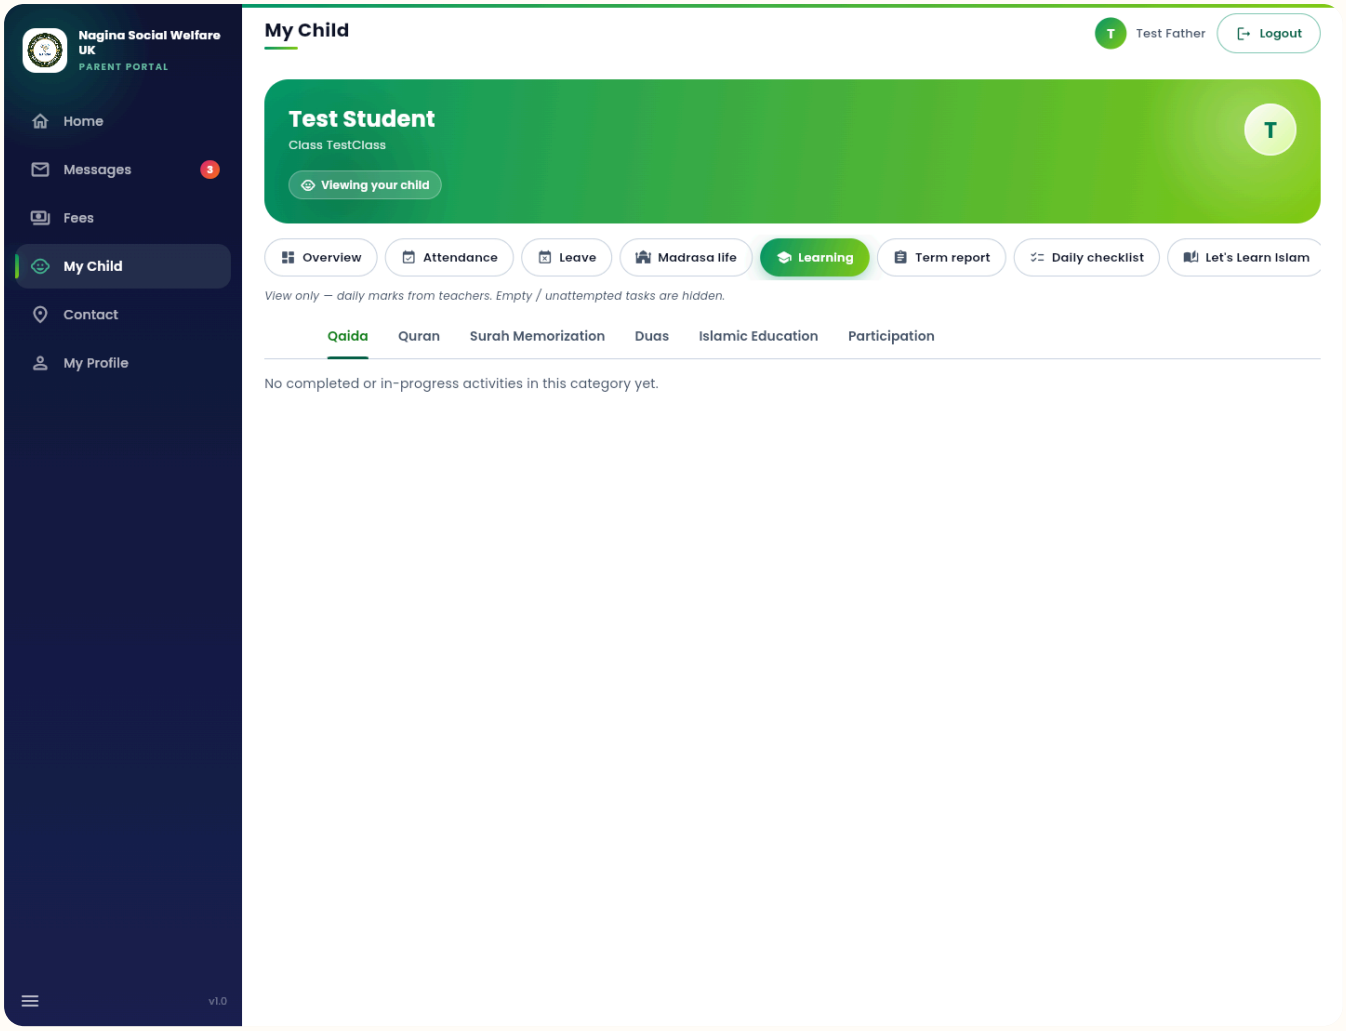

Figure 31. Learning categories.

Term report

Term report gathers the child's name and class, the latest term, the attendance rate, curriculum progress, and the term ratings for Effort in Class, Behaviour, Presentation, and Punctuality. It is the page to read when the teacher has saved a term summary. You also receive that summary by email, which then appears in Messages.

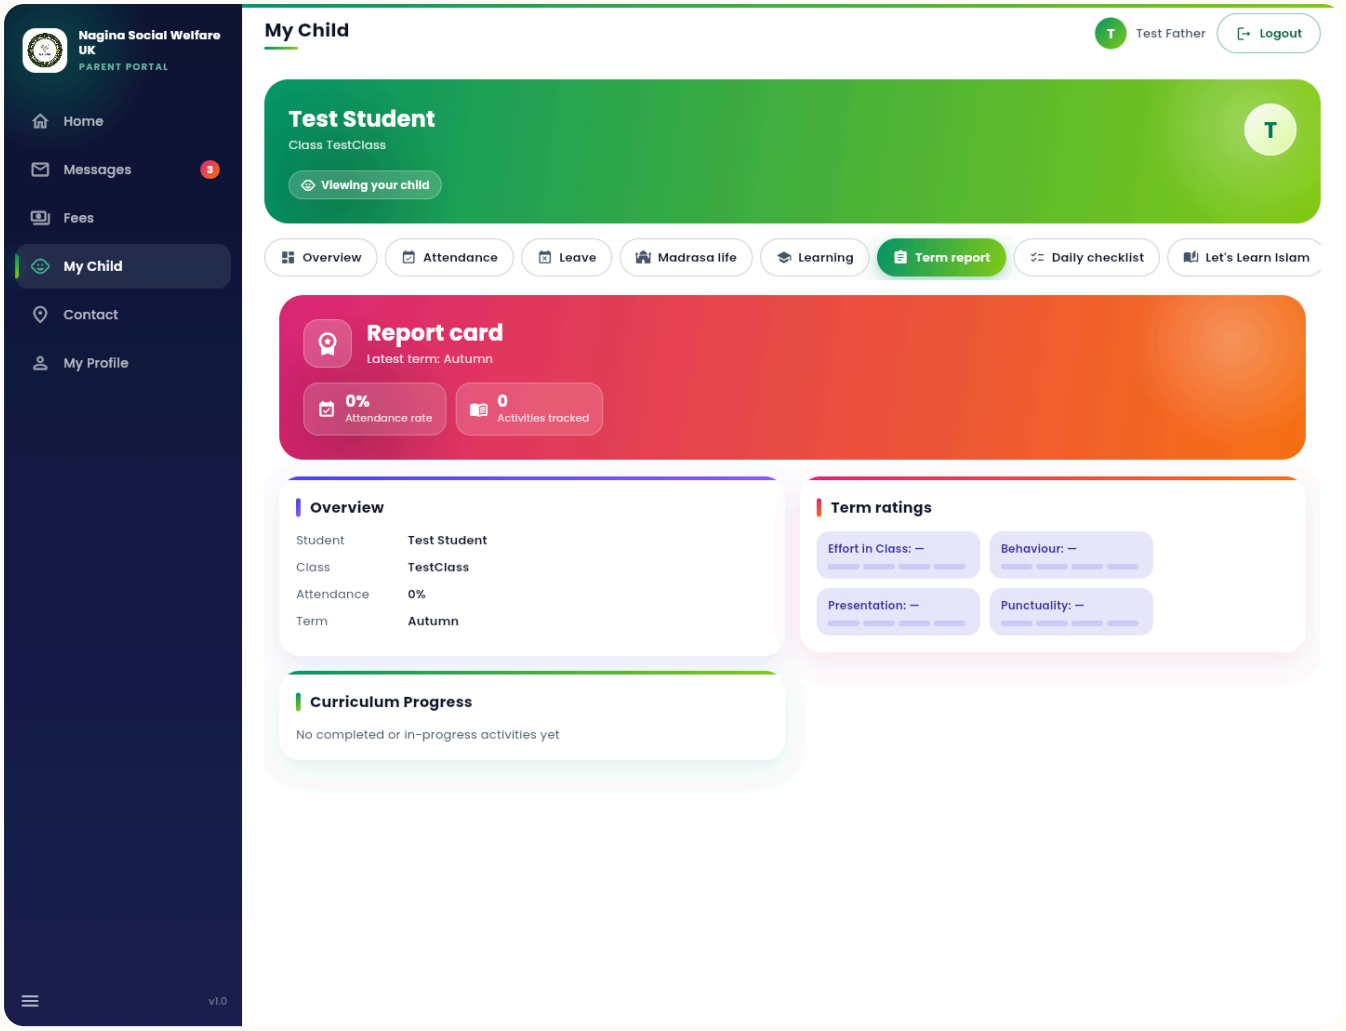

Figure 32. Term report.

Daily checklist

The daily checklist is a list of good habits for each day, grouped into Morning, Day, and Evening: duas, the five prayers, helping at home, and a good deed. Your child ticks items in the Student Portal, and you can tick them here too.

1. Open My Child, then **Daily checklist**. The Today row on Home opens it as well.

2. Pick a day in the date strip. Today is selected first. Days with a number show how many items were done. You can tick today and yesterday. Older days are for reading.

3. Tap an item to tick it. Items with a book icon have a dua. Tap the name to read it.

4 Under **Parents only**, set your child's behaviour for the day as good or bad. Only a parent can set this.

5 **Daily Supplications** at the top lists the duas to read together.

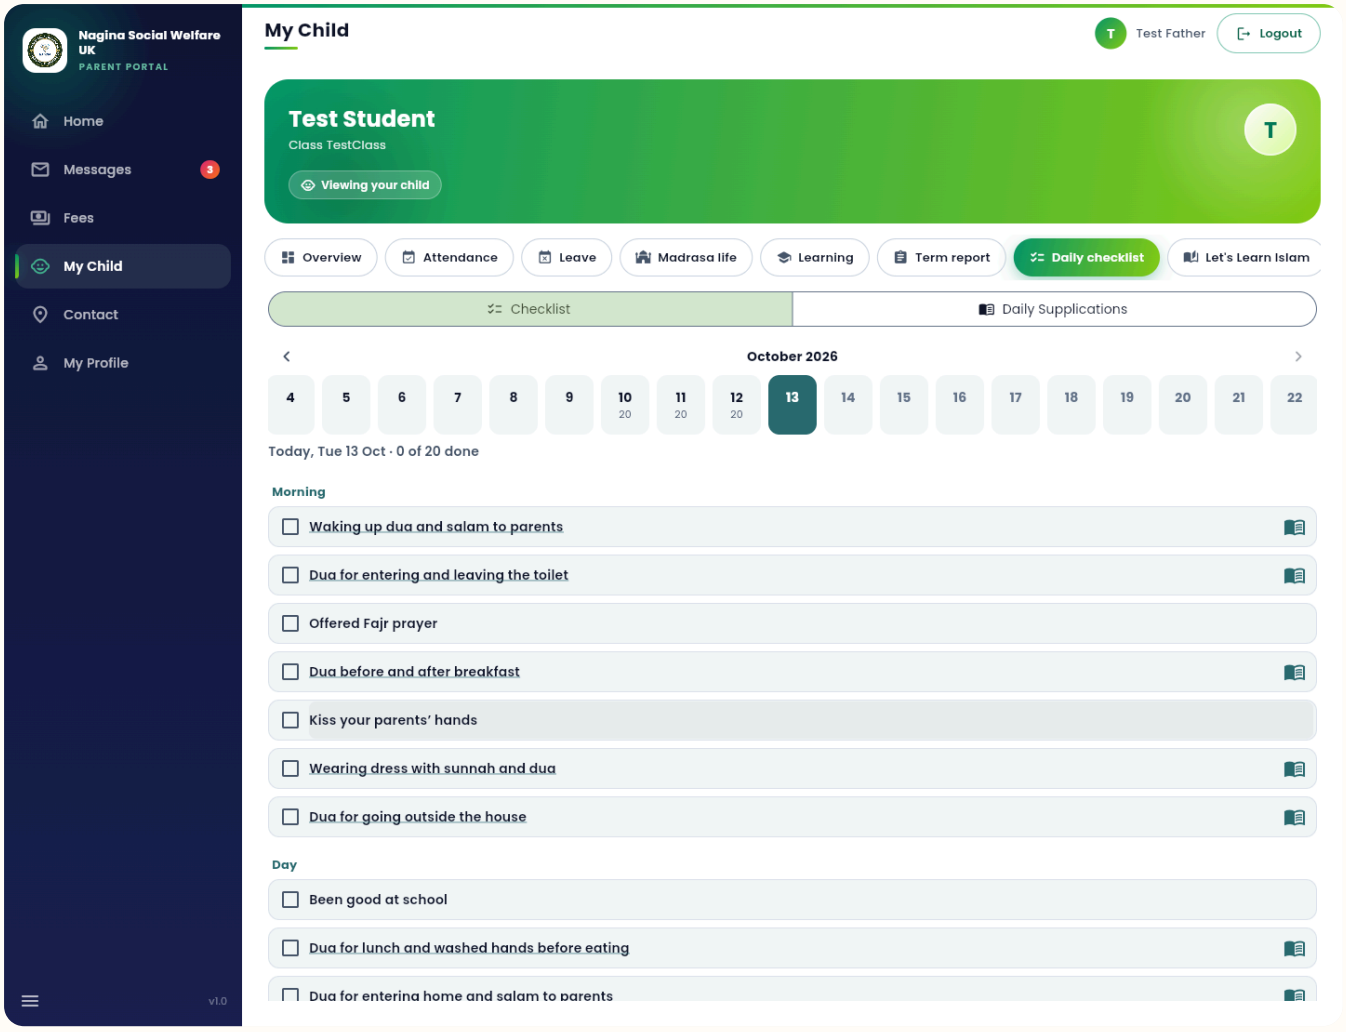

Figure 33. Daily checklist for today. The three earlier days show 20 of 20 done.

Let's Learn Islam

Let's Learn Islam is the set of lessons your child takes in the Student Portal. This tab shows their progress: modules passed, cards learned, the current streak, and when they last practised. Each module shows lessons and cards done, and whether it is not started, in progress, or passed. When your child passes a module, its certificate appears here to download.

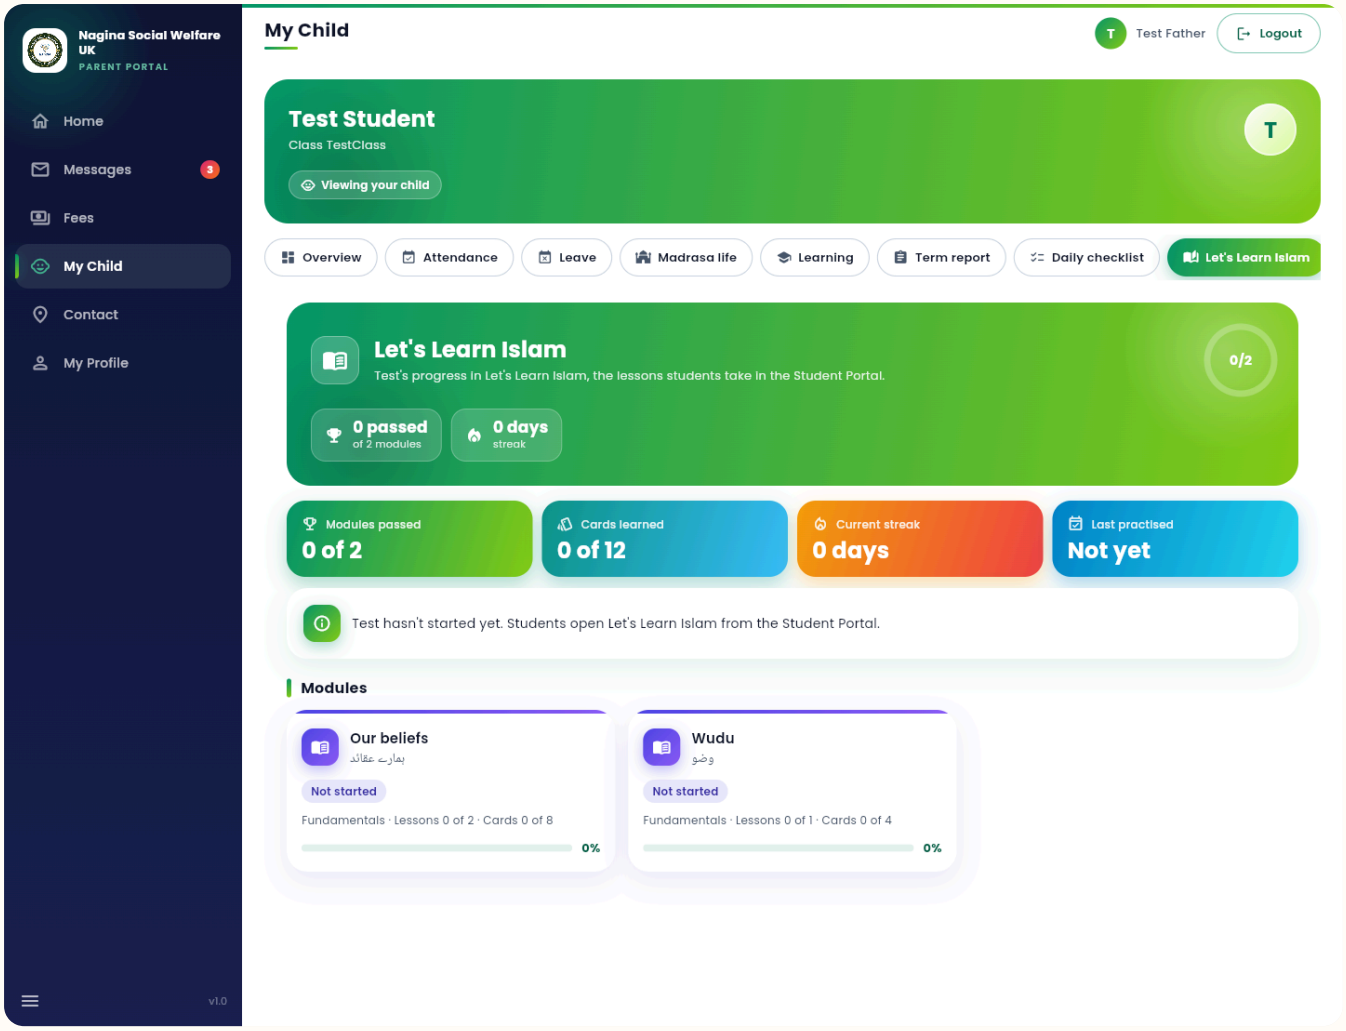

Figure 34. Let's Learn Islam progress.

11. Contact

Contact is your branch's public details, not your own. Your own phone and address are on My Profile.

- **Find us** shows the branch on a map. **Open in Google Maps** starts directions.
- **Call or message** has Email, Call the office, and WhatsApp.
- **NaginaSocialWelfare.co.uk** opens the public website. **Give Sadaqah** opens the donations page.

The same buttons also appear on Home and on My Profile.

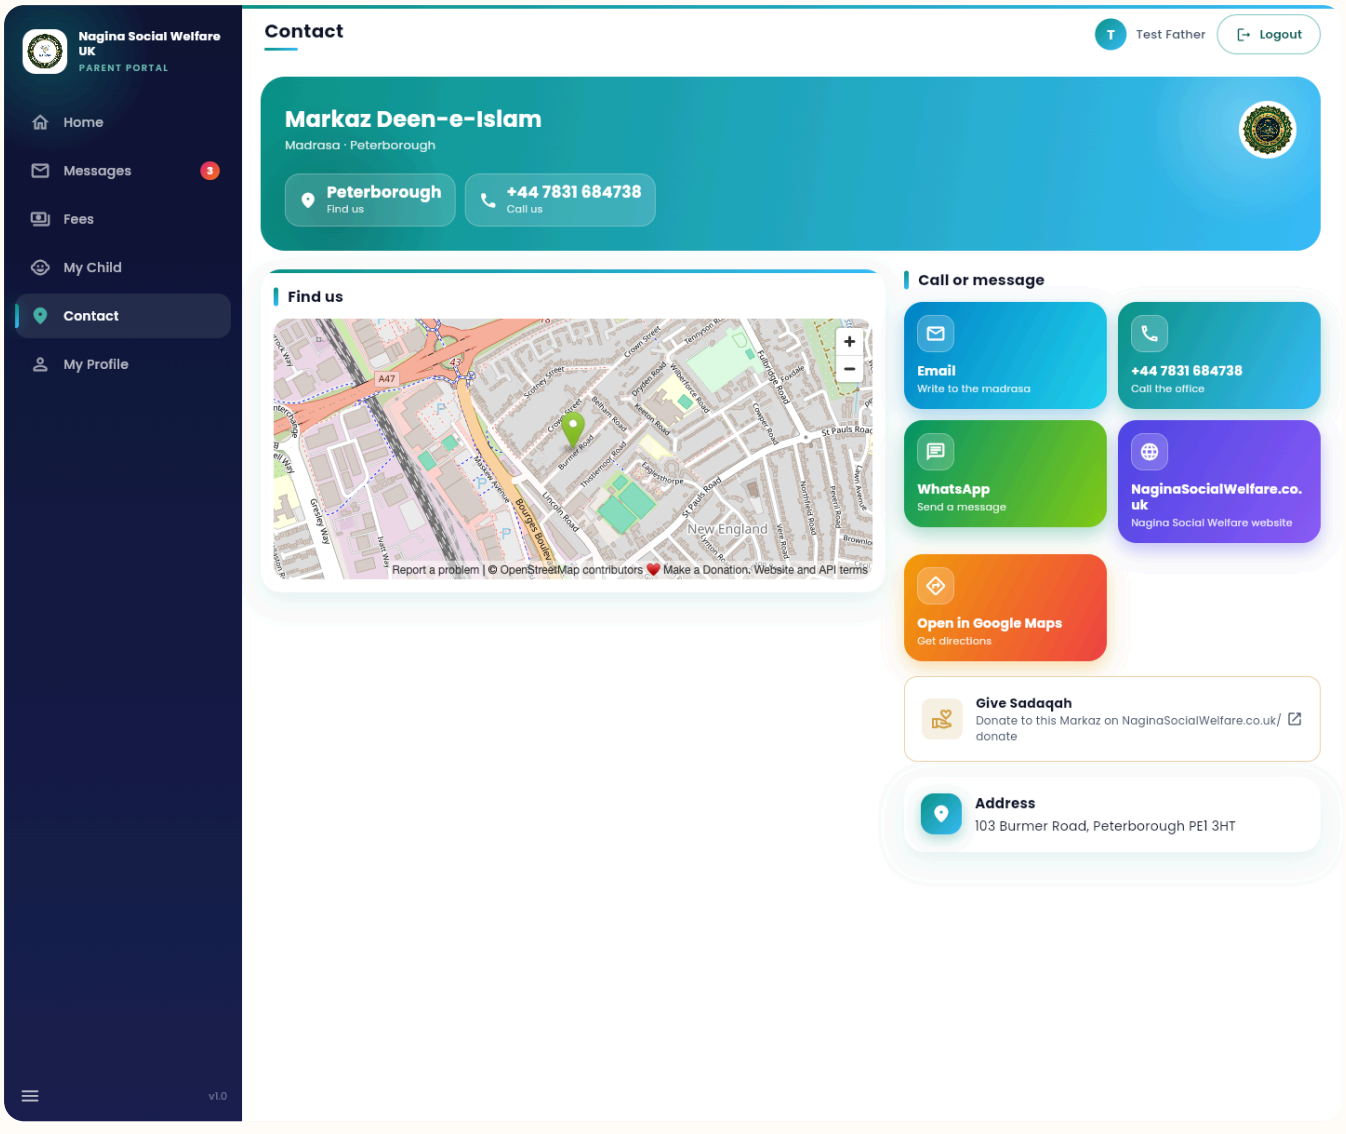

Figure 35. Contact, for a Peterborough parent.

Quran Academy, Manchester

A parent whose child attends Quran Academy sees the Manchester details instead: Partington Community Centre, Manchester M31 4FL, phone and WhatsApp +44 7872 340123, and email `qam@naginasocialwelfare.co.uk`. Everything else in the portal works the same way.

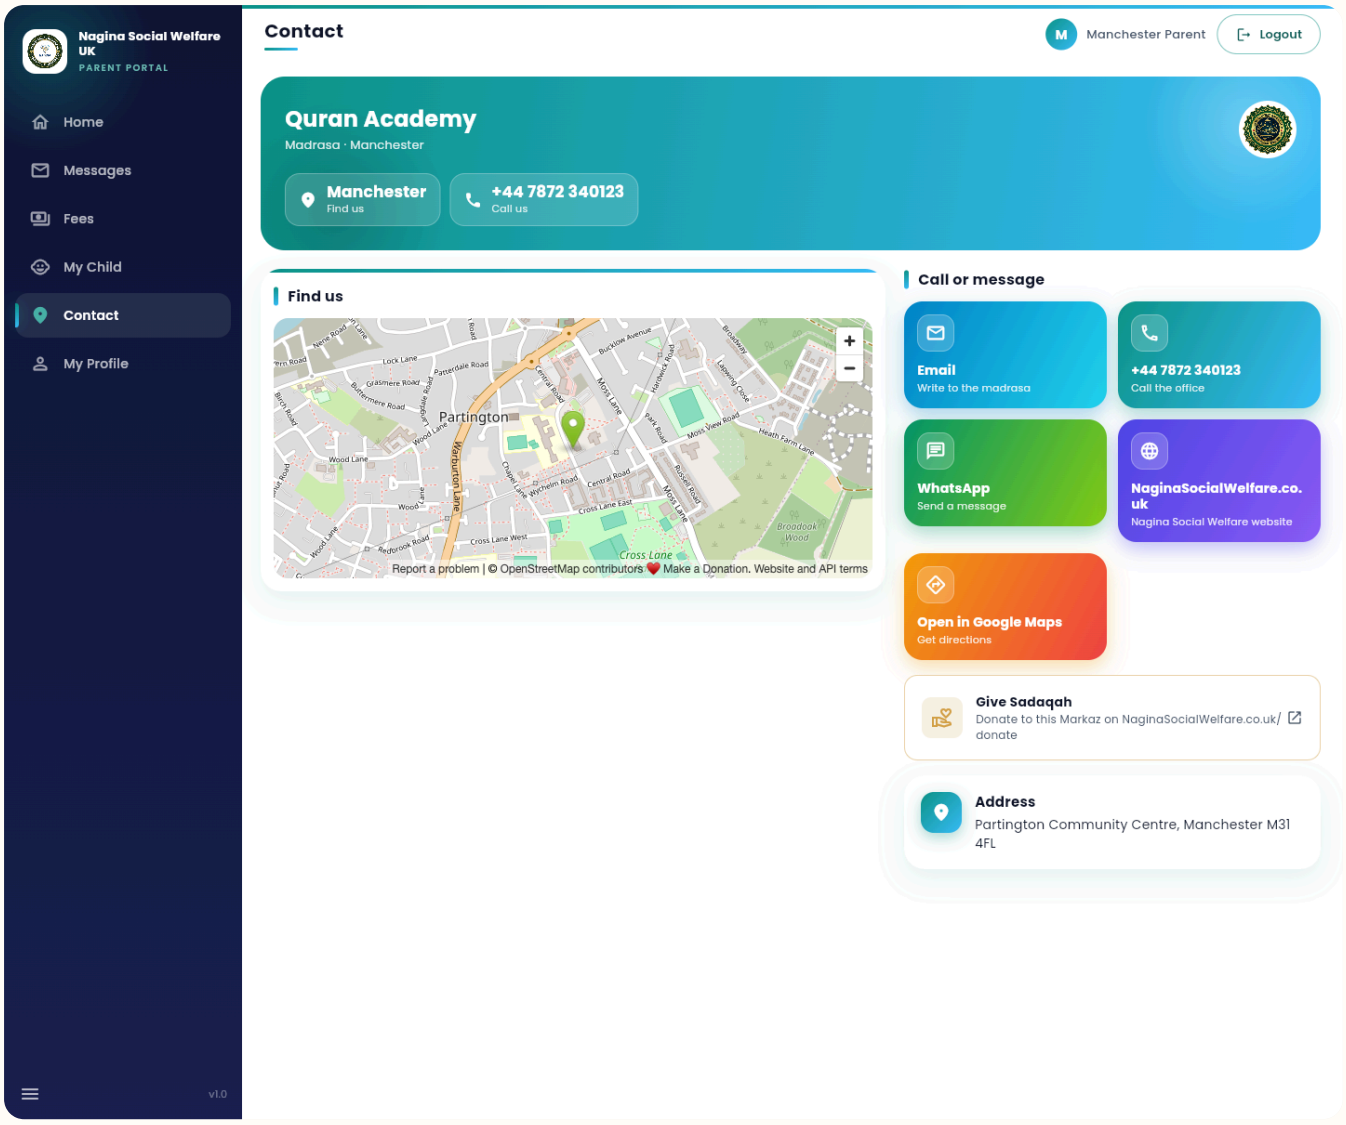

Figure 36. Contact, for a Manchester parent.

12. My Profile

My Profile is the only place you edit your own record. The office still owns the username and the relationship (for example Father), shown in the header.

1. Under **Account**, correct your full name, email, or address. Under **Phone numbers**, separate more than one number with commas.

2. Press **Save changes**. The button appears once something has changed. Changing the email also asks for your current password.

3. To change your password, press **Change password**, type your current password and the new one twice, then save.

Children counts the children linked to this account. **Browser alerts** asks this browser for permission to show a notification when something important happens. Email and Messages still arrive if you leave alerts off. If the browser has blocked notifications, allow them in the site settings and try the switch again. On iPhone, add the portal to your Home Screen first.

Appearance has a Dark mode switch for the whole Parent Portal on this device. **Your data** has **Export my data**, which downloads a copy of the personal information the portal holds for you, and the **Privacy notice**.

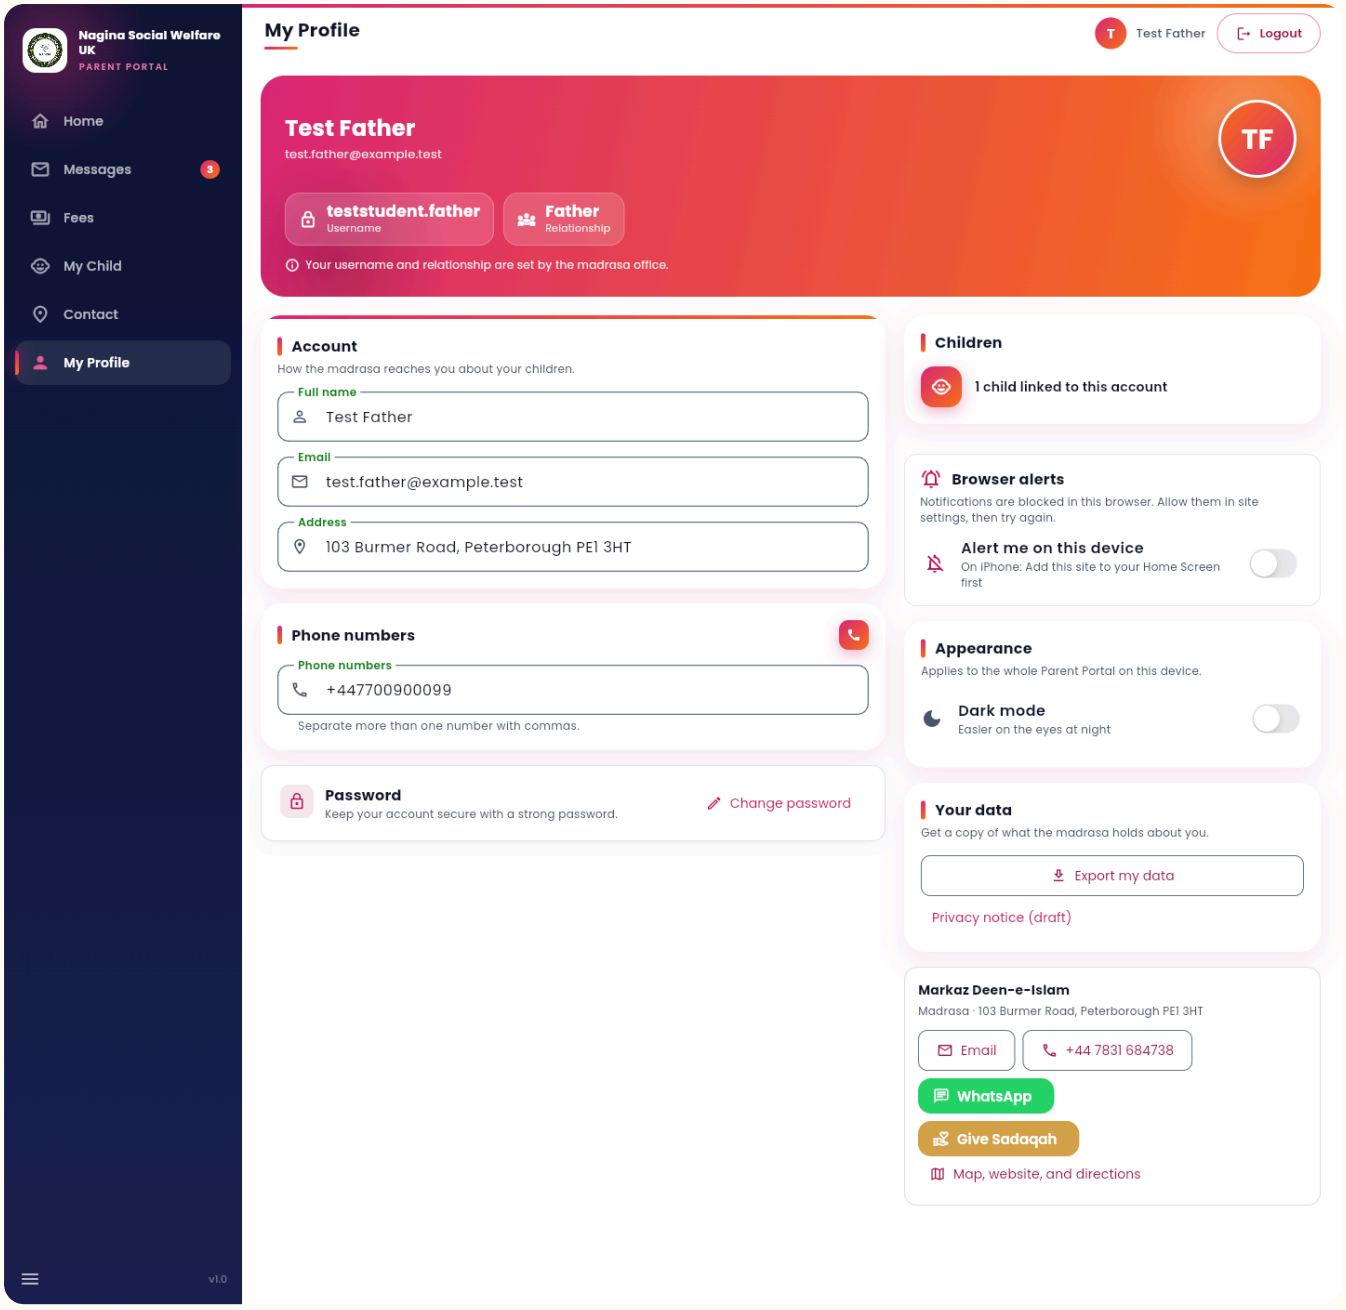

Figure 37. My Profile.

13. Web portal on a phone

On a narrow screen the left menu is replaced by a bar along the bottom: Home, Messages, Fees, My Child, and More. The same pages are there. Cards and tiles stack so you do not have to slide sideways.

More opens a sheet with Contact and My Profile. Logout stays at the top right. The menu icon at the top left opens the full list as a drawer if you prefer that. On an Android phone, the app from Google Play is the easier choice (chapter 3).

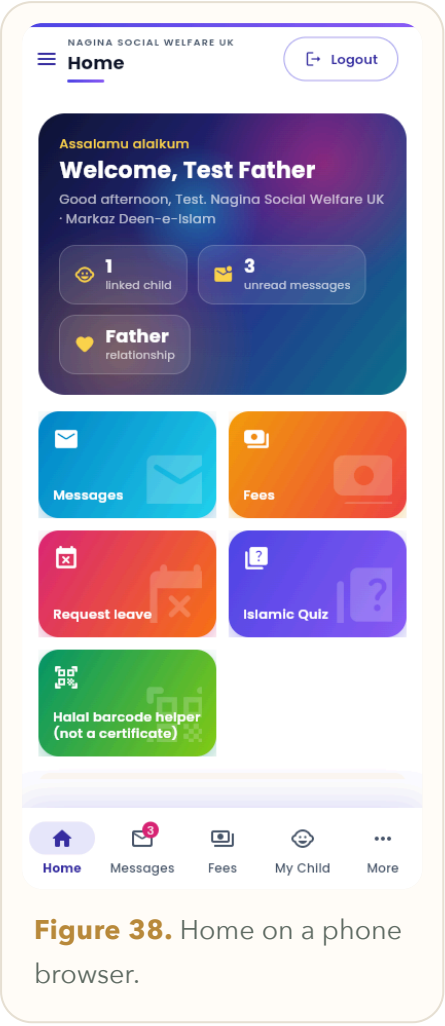

Figure 38. Home on a phone browser.

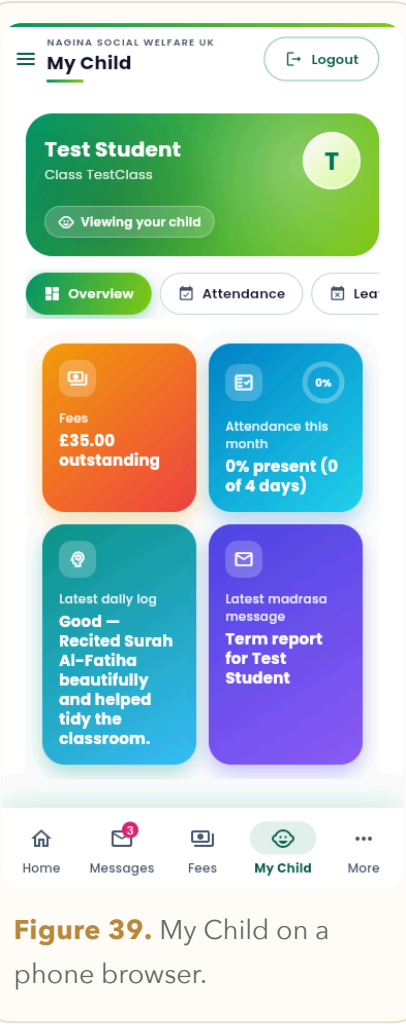

Figure 39. My Child on a phone browser.

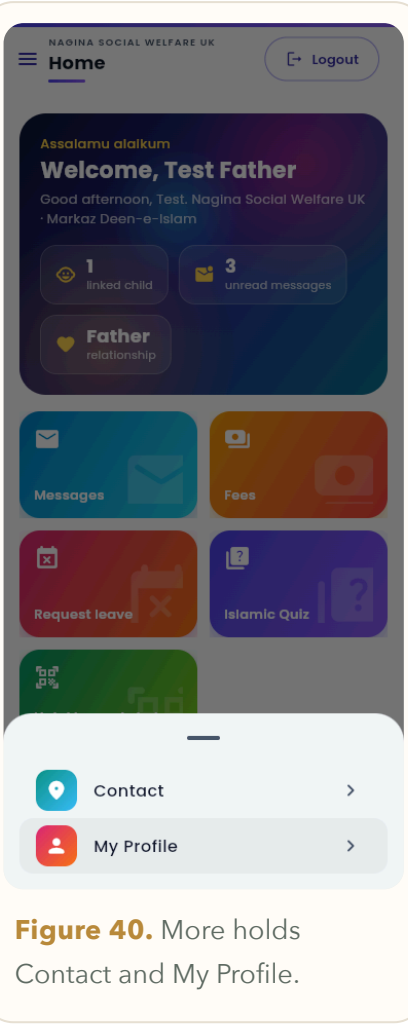

Figure 40. More holds Contact and My Profile.

14. What you can do

You can	The madrasa does this
Install the Android app, or pin the parent web portal on iPhone, Android, or a computer	Issue your username. The iPhone app is still to come
See only your linked children, at either branch	Link a child to your account
Read attendance, learning, behaviour, activities, and the term report	Mark attendance and save progress
Tick today's and yesterday's daily checklist, and set your child's behaviour for the day	Set up the checklist items and duas
Follow Let's Learn Islam progress and download certificates	Publish the lessons
Request leave, and cancel it while it is pending	Approve or reject the request
Read fee totals and pay an amount that is due, by card	Set the branch fee, record cash, and

You can	The madrasa does this
	send receipts
Read madrasa emails in Messages, and turn on phone or browser notifications	Send the emails
Update your name, email, phones, address, and password	Change your username or relationship
Export your own data	Hold the student record

If a page looks old. After the parent web portal is updated, refresh the browser. On a phone, close the tab and open `https://admin.naginasocialwelfare.co.uk/login/parent` again. If you pinned the portal as an app, open that icon once more after the refresh. The Android app updates itself from Google Play.
